

THE KELOWNA COURIER

AND OKANAGAN ORCHARDIST

VOLUME 24.

Kelowna, British Columbia, Thursday, June 14th, 1928

NUMBER 44

BOARD OF TRADE DISCUSSES LAKE LEVEL

Mr. F. W. Groves, C.E., Emphasizes
That Okanagan River Must Be
Dredged And Straightened

After a hiatus of several months, a general meeting of the Kelowna Board of Trade was held in the premises of the Board on Tuesday evening, when there was a fairly good turnout of members, considering that the weather was unsettled and showery. President Foulkes occupied the chair.

After the usual formalities in connection with the reading of minutes, correspondence was taken up.

Rival Road Routes

A letter from the Revelstoke Board of Trade invited the Kelowna Board to support the Rogers Pass route for the proposed road between Revelstoke and Golden in preference to the route via the Big Bend of the Columbia River, branching to Jasper from the Canoe River, at the apex of the Bend. The reasons for advocating that the road should run from Golden to Revelstoke via Rogers Pass, then from Revelstoke to Canoe and from Canoe to Jasper, were stated as: the leg from Golden to Revelstoke is shorter than from Golden to Canoe; it is the more scenic route; it will serve a large number of settlers and miners, whereas the other route will not serve any; it will in truth connect all the National Parks, enabling the public to realize on the large investment in these parks; it will be an economic saving and will in no way injure or prejudicially affect a single individual or community.

The Revelstoke Board took exception to the reason given by the Dominion Government for its intention of building a road via the Big Bend route as being a desire to connect up the National Parks by auto-roads, and charged that such was not the real reason, because the proposed road, if built, would defeat its primary object as it would effectively isolate Glacier Park and partially isolate Revelstoke Park. The real reason, the Board declared, was to keep Glacier Park free from auto-tourists.

As a clincher to its argument, the Board stated that inspection on May 25th showed that all the snow was off Rogers Pass.

Mr. P. Capozzi, who said he knew the country around Revelstoke very well, stated that the Rogers Pass route was undoubtedly much shorter than that via the Big Bend, but it would be passable for only a comparatively short period of the year, owing to the altitude and the depth of snow.

Mr. F. W. Groves took the view that the Big Bend route, being on practically a water grade, should be open for traffic for a much longer period than the other route, which climbed over a high mountain summit.

On motion, Messrs. Elliott and Rees, it was decided, owing to lack of adequate information, to refer the letter to the Executive Council, with instructions to secure further details.

Rapid Action On Westside Road Repairs

The Secretary, Mr. E. W. Barton, reported that a telegram had been dispatched last week to the Provincial Minister of Public Works, calling his attention to the condition of the lake-shore road on the west side of Okanagan Lake, and suggesting that a decision should be made forthwith whether to put it into passable condition, or abandon it as a detour. A prompt reply was received from Hon. Dr. Sutherland stating that a representative of the Public Works Department would examine the situation this week, and Mr. Napier was due to arrive on Wednesday. Meantime, Mr. G. C. McKay, District Engineer, had informed him that an estimate of the repairs required to the road was to be made at once.

Mr. S. T. Elliott, General Road Foreman, who was invited to speak on the subject, stated that Mr. McKay and he had gone over the Westside road on Sunday on horseback, and they had come to the conclusion that the lower road could be repaired with the lowest equipment, men and teams were got together and put to work, with the result that the road was opened in two days. (Applause.) Mr. McKay had allowed him ten days to do the work. There was no place now where two cars could not pass. There was water over the road in places, but the deepest was only about six inches, and the bottom was solid rock and perfectly safe. The causeway at Pentiction was quite passable. No more work would be done on the upper road.

Lake Level

President Foulkes asked Mr. Groves to make a statement in regard to the level of Okanagan Lake.

Mr. Groves said the lake now stood 2 1/2 feet higher than the agreed maximum level. He recounted what had taken place at the recent conference at Pentiction, as already reported in a previous issue of The Courier, when a resolution had been passed declaring in favour of a minimum level of 98, which was 1.5 lower than the previous minimum. Another resolution had been passed requesting the Dominion Government to dredge the channel of the Okanagan River. This was absolutely essential, as setting a lower level could not be carried into effect unless the outlet of the lake was widened and deepened to permit of faster flow and greater volume. If the Okanagan River was widened, deepened and straightened be-

LOCAL BROADCASTING CLUB IS FORMED

New Organization Will Co-operate
With Kelowna Radio Association

As the result of a well attended and enthusiastic meeting, held at the Green Lantern Tea Rooms on Monday evening, a novel radio organization has come into being known as the "Ogo-pogo Club." Co-operating with the Kelowna Radio Association, the club will follow along the general lines of the "Foot Owls" and similar novelty broadcasters and proposes to put on the air the very best material that can be procured, instrumental, vocal, humorous, etc. In addition to the services of local artists, the club already has been promised the hearty co-operation of talent at Vernon, Summerland, Pentiction and other points.

Apart from the entertainment value of the new scheme, it should prove without doubt to be an effective and unique advertising medium for the Okanagan Valley, and it has received the endorsement of a number of the city's leading business men.

Mr. John Leathley occupied the chair during the election of officers, who were chosen as follows: Honorary President, Mr. K. MacLaren; Honorary Vice-Presidents, Messrs. R. M. Buckland, H. E. Green and W. J. Knox; Director, Mr. T. G. Griffith; Secretary-Treasurer, Mr. B. W. Johnston; Finance Directors, Messrs. P. Capozzi, H. Tutt and H. A. Blakeborough.

Full particulars and club news will be issued each week, and it is expected that programmes will be ready for presentation in the course of the next few weeks. Further details will be given in the next issue of the Courier.

tween Pentiction and Dog Lake, it would relieve the situation so far as dwellers on Okanagan Lake were concerned, but it would not help the people living along the lower stretches of the river below Okanagan Falls, who would continue to be flooded out. The only way to help those people would be to continue improvement of the river channel right down to the international boundary, and to see that there were no obstructions in the river below the line, such as he understood to exist. He declared that the only thing that had saved the situation and had prevented Okanagan Lake from rising another foot was the cool weather which ensued after the unduly warm spell in May.

In conclusion, Mr. Groves suggested that the Board of Trade should take some action to have the danger of flooding removed, as there was no guarantee that the resolutions passed at the Pentiction meeting would be acted upon.

Mr. Barton explained that Mr. P. E. Doncaster, Dominion Government Engineer at Nelson, had wired to Ottawa for permission to call together a meeting of representatives of the various points concerned in the question of lake and river level. Dr. Brydson-Jack, Dominion Engineer for the province, had seen conditions for himself and had realized that something must be done, and it was at his request that the resolution in regard to dredging the river was passed, in order to show the wishes of the localities represented at the meeting.

The subject then dropped.

New Members

Applications for membership having been received from Messrs. F. M. Pearson, R. E. J. Hunt, J. R. Campbell and W. J. Coe, all these gentlemen were duly elected members of the Board.

Fishing Rights In Chute Lake

Mr. J. B. Spurrier brought to the attention of the meeting that Capt. Creese was once more asserting his rights to conserve the fishing in Chute Lake, having warned off some people recently. It was understood that he was forming a company to exploit the government concessions he had obtained. Mr. Spurrier held that, as there were so few good fish lakes in the neighbourhood of Kelowna, none of them should be closed to the public, especially when a road had been opened to that sheet of water largely through private subscription and effort. He urged, therefore, that an energetic protest be made by the Board against alienation from the public of the privilege of access and of fishing rights in Chute Lake, and that application be made to have the privileges cancelled, which had been granted to Capt. Creese.

It was decided to leave it to the Executive to investigate the matter and to take any desirable action to restore fishing rights in Chute Lake to the public.

Advertising Of The Wrong Sort

Mr. S. T. Elliott drew attention to statements made in a publication issued by the B. C. Advertisers, of Vancouver, to the effect that, owing to flood conditions, the roads north of Osoyoos were closed. He had got in touch with Mr. L. J. Wood, of the Okanagan-Cariboo Trail Association, who was having a stenographer busily engaged in circularizing the whole West coast to broadcast the information that the roads were open. Mr. Wood would also advise newspapers throughout the country that the roads were open for traffic. This showed that the Okanagan-Cariboo Trail Association was doing its utmost for the district it served, and it also showed what mischief could be effected by such statements as had been made by the B. C. Advertisers.

Mr. Barton confirmed what Mr. Elliott had said about the matter issued by the B. C. Advertisers, which was in the form of a weekly bulletin. A representative of that firm had been in Kelowna a few weeks ago, when the speaker had hauled him over the coals for the incorrect statement which had

(Continued on Page 4)

ANNUAL MEETING OF GROWERS' EXCHANGE

Attendance Is Small And Proceedings
Are Devoid Of Any Outstanding
Features

The annual meeting of the Kelowna Growers' Exchange was held on Friday in the Aquatic Pavilion with a very small attendance of members, and the proceedings were tame as compared with similar events in the past and devoid of outstanding features of interest. Business began at 10.15 a.m., with Capt. C. R. Bull, President, in the chair, supported by Mr. W. V. Witt, Secretary.

After the reading and adoption of lengthy minutes of preceding meetings, the annual report of the Directors, printed copies of which had been distributed, was tackled.

Redemption Of Shares

Mr. C. E. Weeks said that it was rather difficult to follow the minutes to the procedure in regard to redemption of shares, and he asked for an explanation.

The chairman replied that the shares would be redeemed in the order of their issue.

Local Cold Storage

Mr. R. L. Dalglish enquired if the local cold storage plant was entirely under control of Central. He understood it had been installed originally for the chief object of providing protection for Jonathans, but this did not seem to be now carried out.

Capt. Bull replied that the cold storage facilities were available for local use. A date had been set for growers to pick Jonathans, and the Directors would like to obtain the power to assess a penalty of 10 cents per box upon those who failed to pick by the date fixed, the proceeds of the penalty to be put into the Jonathan pool. It was proposed to pack out a certain percentage of the Jonathans with McIntosh and to put into cold storage any Jonathans for which there were no orders. Mr. Dalglish said the Americans advocated pre-cooling of Jonathans, otherwise trouble would be experienced with breakdown in bad years. He did not advocate a separate pool for Jonathans but putting them into cold storage as a preventive of breakdown.

Capt. Bull replied that the cost of putting a box into cold storage was about six cents, so that it was rather a serious matter to undertake. He thought a vigorous effort should be made to push off the Jonathans quicker this year.

Mr. H. J. Hewitson pointed out that it might pay some growers to suffer the penalty of 10 cents per box and not pick their Jonathans when ordered to pick them. He understood that McIntosh and McIntosh had taken place in previous years. His view was that, if a grower did not pick fruit on the date ordered, the Exchange should refuse to accept it.

Buildings And Alterations

The chairman reported that alterations had been carried out to the East Kelowna Rutland and town packing houses at a total cost of about \$7,300. All the alterations were essential and had been executed as economically as possible. The erection of their own building to house the Feed Department had been contemplated by the Board, but it had been decided to defer action until it became possible to secure a suitable co-tenant to rent part of the premises, and thus help with the carrying charges.

Mr. Dalglish enquired if the present building was to be repainted, as it looked very shabby, and was informed that this would likely be done next month.

Dividends

Mr. O. St. P. Aitkens renewed his appeal for payment of dividends on shares, a matter which he had brought up at previous meetings.

Capt. Bull pointed out that, if a dividend was declared, income tax would have to be paid to the Dominion and had been executed as economically as possible. The erection of their own building to house the Feed Department had been contemplated by the Board, but it had been decided to defer action until it became possible to secure a suitable co-tenant to rent part of the premises, and thus help with the carrying charges.

Mr. Dalglish enquired if the present building was to be repainted, as it looked very shabby, and was informed that this would likely be done next month.

Mr. Aitkens moved, seconded by Mr. W. D. Walker, that the Directors consider the question of paying a dividend, but the resolution was defeated overwhelmingly, upon being put to a vote, previous to which a member declared that, if it carried, he would cancel his contract.

Upon the motion of Messrs. Aitkens and Corner, a hearty vote of thanks was accorded to the Manager and Feed Store Manager for the efficient manner in which they had run their departments during the past year.

The report of the Auditor elicited no questions, and its adoption, together with the report of the Directors, was moved by Messrs. Corner and Aitkens and carried.

Glenmore Packing House

Mr. W. Geary enquired as to the operation of the Glenmore packing house, and was informed that no decision had been reached yet as to running it this season. If there was congestion in the town house, it would have to be opened.

(Continued on Page 4)

LOCAL MATERIAL AND LABOUR FOR NEW HOTEL

Contractors Will Deal In Kelowna For
Bulk Of Requirements

The Directors of the Kelowna Hotel Company, Ltd., held a meeting a few days ago with Mr. Johnston and Mr. Gill, of Johnston & Co., Ltd., of Kamloops, contractors for the new hotel, when the question of buying material locally and of employing local labour was discussed thoroughly.

As the result of the conference, Mr. Johnston assured the Directors that he was satisfied with the quotations obtained here and that the major portion of the hardware, lumber and general supplies required for construction purposes would be bought in town, and, further, that it was the intention of his firm to bring from Kamloops only their skilled employees and to employ all local labour available.

PUBLICITY FOR B. C. FRUIT ON PRAIRIES

Interior Committee Of Direction Rap-
idly Maturing Campaign For En-
lightenment Of Consumers

Kelowna, B.C., June 12, 1928. The Chairman returned to the Valley on Monday, June 11th, from a week spent on the prairies, during which time he visited Calgary, Regina and Winnipeg, meeting brokers and jobbers in each city. Mr. A. J. Finch was there also. He is visiting the cities of Saskatchewan and Edmonton in addition.

Great interest was shown in the B. C. fruit deal this year, and it would appear as if it will receive a very satisfactory measure of support. This has been already evidenced as regards strawberries, the importations of U.S. berries having gone down in anticipation of the arrival of B. C. berries, which commenced in carload lots about the end of last week. Unfortunately, the conference was attended with weather, the comparison between the Hood River and the earlier B. C. berries was rather to the disadvantage of the latter. They will probably sell from \$3.00 to \$4.00 per crate.

Quotations for early arrivals of stone fruits from the U.S. are lower than last year. This, owing to the absence of the dump duty, may have an adverse effect on the price obtainable for the B. C. varieties when they are ready for marketing.

In cherries, Wenatchee estimates over 150 cars; Yakima, 300 cars. Oregon has a minimum crop. The latter are already moving.

In apples, Oregon estimates about 6,000 cars, with shipments about August 20th. Washington will have one of the largest crops in its history. Wenatchee estimates 20,000 cars; Yakima, 17,000 cars; other districts will have an increase over last year.

The Chairman spoke at the International Wheat Pool Conference at Regina, on the B. C. Produce Marketing Act. His address was well received. The conference was attended by delegates from England, Australia and Russia. One of the English representatives was Sir Thos. Allen, of the Empire Marketing Board, whose addresses were among the finest at the Conference. He was invited to visit the fruit districts of B. C. but could not give the time on this occasion, as he was returning at once to England.

One of the banquets was addressed by each of the three Premiers of the Prairie Provinces. At an earlier one the chief speaker was the Hon. W. R. Motherwell, Minister of Agriculture for the Dominion. He paid a telling tribute to the qualities of B. C. fruit and its packing, which, in view of the popularity of the dump duty, was very timely. When interviewed on the question of the dump duty, he stated that this was now removed entirely, due to the legal interpretation on the powers of the Cabinet to carry out the previous provisions. It would appear as if he were personally sympathetic to some such action, and it is possible that the next session of the House to remedy existing disabilities.

Arrangements for consumer publicity are being made rapidly and the representative of the Committee will be speaking at gatherings of women in Saskatoon and Winnipeg this week. The plan outlined to make the home-makers acquainted with the conditions of production as to the times of maturity and when the varieties may be expected on the prairies, then to mobilize the buying power of the consumers so that the demand may be prompt and steady. It is hoped in this way to stimulate the buying of fruit at the times of heaviest shipments, also to create a strong sentiment in favour of buying that, if carried, he would cancel his contract.

Upon the motion of Messrs. Aitkens and Corner, a hearty vote of thanks was accorded to the Manager and Feed Store Manager for the efficient manner in which they had run their departments during the past year.

The report of the Auditor elicited no questions, and its adoption, together with the report of the Directors, was moved by Messrs. Corner and Aitkens and carried.

Mr. Aitkens moved, seconded by Mr. W. D. Walker, that the Directors consider the question of paying a dividend, but the resolution was defeated overwhelmingly, upon being put to a vote, previous to which a member declared that, if it carried, he would cancel his contract.

BOY SCOUTS IN GOOD FORM AT DISPLAY

Attractive Programme Enjoyed By
Second Largest Attendance On
Record

Before audiences totalling the largest attendance on record except upon the occasion of the visit of Sir Alfred Pickford two years ago, the First Kelowna Troop of Boy Scouts made very creditable appearances on Friday and Saturday evenings upon the occasion of their annual display. The programmes were interesting throughout and showed some variation from those of preceding years, more opportunity being given to show the amount of real dramatic talent possessed by the Troop.

The opening number on both evenings was a snappy march, "The Land of Glad Tomorrow," by the Scout Orchestra, consisting of Scout W. Gaddes, piano; P. L. Ned Wright, saxophone and clarinet; Second L. Clement, trombone; Scout Fred Smith, trumpet; Scout Harry Anderson, banjo; Scouts H. Aitken and F. Pharey, violins; Scout Jack Treadgold, drums; all under the capable leadership of Mr. T. Finlay. The playing of the orchestra was spirited and catchy, and the audience showed its unmistakable appreciation by hearty applause of the selections rendered throughout the programme.

The Troop made its appearance as a body in the second item, a most elaborate and complicated marching drill, which was carried out with wonderful smoothness and precision of movement, much of it without a single word of command from Scoutmaster Weddell.

It would have baffled adults to have executed the mass formations, which also opened out again with ease and dexterity. The orchestra supplied a peppy stimulus by playing "Schultz Is Back Again."

Twelve Old Scouts, led by Mr. Henry Tutt, gave a good chorus rendering of "Chloe."

Second George Dunn, Scouts Laurie Scott and James Macfarlane acquitted themselves with distinction in a comical farce, "April Fools," in which a gentleman with several marriageable daughters gets into complications with an undertaker and a horse buyer, the misunderstandings being very laughable.

After the orchestra had given a tuneless rendering of the waltz "Lay My Head Beneath a Rose," Scouts Herbert Aitken and Stirling and Wm. Watt played a Polish dance by Wieniawski as a violin quartette, showing a remarkable degree of skill for such young artists.

The Old Scouts chorus followed with "There Ought to be a Law Against That," part of which they whistled in unison, scoring a big hit and earning an encore.

A ceremony seldom seen by visitors ensued, that of investiture of Scouts, which was carried out with fitting solemnity. Those invested were Scouts Charlie Dore, David Campbell and Jim Treadgold.

On Saturday evening, Scoutmaster Gray of the Rutland Troop then presented the following badges to Scouts: Second Class, Second D. Lucas, Scout Jack Treadgold, M. Meikle and C. Stone.

Electrician: P. L. A. Stirling. Carpenter: Second D. Lucas, Scouts B. Gaddes and W. Gaddes. Artist: Second D. Lucas, Scout R. Matthews.

First Class: P. L. A. Stirling. Gardener: P. L. C. Pettman, P. L. H. Weatherill. Entertainer: Scouts B. Gaddes and W. Gaddes.

Scoutmaster Weddell thanked Scoutmaster Gray for presenting the badges and for his keen interest in Scouting and helpful aid in starting the Troop at Benavon and Winfield, as a token of which he bestowed upon him the Scout silver Thanks Badge. This presentation was followed by lusty rounds of cheers for Scoutmaster Gray by the assembled Scouts.

As an appreciation of the constant helpful service rendered by the Ladies' Auxiliary, whose last good deed has been to furnish the Scouts' own particular dinner, Scoutmaster Weddell asked Mrs. Macfarlane, President of the Auxiliary, to accept a Thanks Brooch, and the lady was loudly cheered as she came forward for the gift.

To Bandmaster Finlay and Mr. W. B. Bredin, tins of cigarettes were presented in acknowledgment of their unselfish aid with the orchestra and the preparation of the dramatic pieces, and the recipients were greeted with cheers and a tiger.

Mr. Weddell also expressed the indebtedness of the Troop to the Old Scouts and Mr. Henry Tutt for their contributions to the programme and to Messrs. Willis and Marriage and Mrs. Flinders for playing the accompaniments on both evenings.

After the orchestra had got the feet of the people restless with the waltz "Lover's Lane," the patrol rope climbing competition followed, which always causes lots of excitement, owing to the strenuous efforts made to beat the record set up by the Wolves in 1924 of 1 minute, 13 3/5 seconds. The Owls actually accomplished the feat on Friday evening, performing the test in 1 minute, 12 and 4/5 seconds, but they were disqualified on account of one of the team sliding down the rope on the last lap, contrary to the rules. They repeated their record-breaking time exactly on Saturday night but were again unlucky, as one of the team lost his hold on the rope in coming down and fell.

(Continued on page 5)

FIRST CONCERT BY ORCHARD CITY BAND

Programme To Be Offered On Friday
Evening, June 15th

Under the leadership of Mr. T. Finlay, the Orchard City Band will give its first open air concert of the season in the City Park tomorrow evening, Friday, June 15th, commencing at 8 o'clock. The Band has lost four of last year's players, but their places have been filled by young lads, who are making excellent progress.

The programme to be rendered will be as follows:

"O Canada"
March, "March of the Mighty" (Al. Hayes).
Overture, "Mignonne" (J. Baumann).
Valse, "Sunset on the St. Lawrence" (M. Heller).
Polka, "Gaiety" (H. Hartley).
Selection, "Sunny South" (J. Lampe).
Serenade, "For Love of You" (F. Myers).
Gavotte, "Dancing Dolls" (S. Seredy).
March, "Banner of Democracy" (A. Hayes).
"God Save The King."

UNION LEADER ARRESTED ON MURDER CHARGE

SYDNEY, N.S., June 14.—A dramatic development in the strike of sea cooks, which threatens to seriously dislocate shipping, is the arrest of Jack Gardin, a trade union leader, on a charge of wilfully inciting to murder. Gardin is alleged to have said that sea cooks might go to the rails and lose their balance. The Government has issued a special gazette proclaiming a state of emergency.

FRENCH AIRPLANES WRECKED IN STORM

LEBOURGNET, FRANCE, June 14.—Seventeen military airplanes out of a squadron of 21 were forced down, five being wrecked and one observer killed during a night flight from Nancy. The planes ran into a violent storm in the region of Paris.

LIBERALS TO CONTEST CARIBOO RIDING

WILLIAMS LAKE, B. C., June 14.—Robert Neil Campbell, Harper's Camp, has received the Cariboo Liberal nomination by acclamation here yesterday. J. M. Yorston, ex-M.L.A., declined to run again. A resolution not to nominate a candidate and leave the field to Stoddart was defeated.

DEATH OF NOTED SUFFRAGIST LEADER

LONDON, June 14.—One of the most picturesque figures in the woman suffrage movement, Mrs. Emmeline Pankhurst, died this morning in a London nursing home at the age of 69. Death came after a comparatively short illness. Mrs. Pankhurst was the first militant suffragist in her efforts to secure the vote for women. After founding the Women's Social and Political Union with her daughter Christobel, Mrs. Pankhurst started the votes for women agitation by heading a deputation to the House of Commons to demand the vote. Many members of this body were jailed.

HON. T. D. PATTULLO UNANIMOUSLY NOMINATED

PRINCE RUPERT, B. C. June 14.—Hon. T. D. Pattullo was unanimously nominated to contest the Prince Rupert riding at the Liberal convention held here last evening.

SHANGHAI SCENE OF LOOTING AND CARNAGE

TIENTSIN, CHINA, June 14.—Twenty looters were beheaded yesterday on the orders of General Fu Tso Yi, the Shanghai commander, following a night of fighting around the city, mostly by the retiring Northern troops who shot into the air. Looting broke out in certain districts and sporadic fighting between gunmen and the police took place in various districts with numerous casualties. The city was the scene of terrible looting and carnage. The streets and the River Pei Ho were strewn with dead. The defence plans of the foreign concessions worked out excellently, though many bullets were fired in the shooting and looting outside the foreign quarters. Chinese city men and women were shot mercilessly and armed men in all sorts of military clothing killed and looted indiscriminately.

SAFETY OF ITALIA CREW ASSURED

KING'S BAY, June 14.—Gen. Umberto to Noble and five of the Italia's crew, stranded with him off Northeast Land, believe they are now safe. Reports received at King's Bay indicate that either the party is now so near Boeck Island off Fynne Island that they could get ashore or that with the news of the various rescue expeditions hastening to their aid, they felt sure they would be saved.

ROME, June 14.—Word was received here today that search for the three missing members of the crew of the Italia had been started with dog teams.

VATICAN DENIES ILLNESS OF POPE

ROME, June 14.—A statement published here today in a newspaper that Pope Pius was suffering from a bad attack of arterio sclerosis, which was worrying his entourage, was emphatically denied.

HOSPITAL BY-LAW AMOUNT SET AT \$15,000

Measure To Be Submitted For En-
dorsement By Ratepayers At
Early Date

The attendance at the regular session of the City Council on Monday night included all the members, owing to the absence of emergency expenditures due to flood conditions and other causes, it would not be possible to accede to the request of the Vancouver headquarters of the Salvation Army for a grant in aid of their women's social rescue and hospital work.

Notification of the date of the annual convention of the Union of B. C. Municipalities, as on September 12th and 13th at Trail, with the convention of the Good Roads League on September 11th, was received from the secretary of the Union.

Laboratory Service

A letter from Dr. H. E. Young, Provincial Health Officer, dealt at some length with the value of the laboratory work carried on at the Kelowna Hospital by Dr. Ootmar. He pointed out that the work had now increased to such an extent that it would be necessary to secure co-operation from various Okanagan districts in order to continue it and make a fair distribution of the cost. The whole time of Dr. Ootmar would be required, and his remuneration would have to be increased accordingly. Previously, it had been nominal. The Provincial Government had borne the expense of fitting up the laboratory. The districts concerned would be expected to make an annual grant towards its maintenance, which would be supplemented by a grant from the Government. The Government expected to develop the scheme so as to result in the appointment of Dr. Ootmar as Medical Health Officer for the Okanagan Valley. If this ultimate object was attained, financial assistance would be received from the Rockefeller International Health Board for two years, in order to establish the work and to demonstrate the benefits which the district will obtain. The letter concluded: "If this plan is carried to fruition, epidemics will be kept well in hand and the services of a specially trained man on our staff will be available from time to time as necessity may require."

The Mayor said his understanding of the amount of assistance expected by the Government was that Kelowna should make a grant of \$250 a year, the other towns in the Okanagan being requested to contribute in like proportion.

Ald. Shepherd stated that the amount of \$250 had already been earmarked for the purpose in the estimates of his department (Health).

Real Estate Sales Consummated

By-Law No. 486, selling Lot 3, R.P. 947, to Mr. Samuel Rodwell for \$350, was reconsidered, finally passed and adopted.

A resolution was put through authorizing the Mayor and City Clerk to execute an agreement under the Better Housing Act for the sale to Mr. W. H. Ribelin of Lot 2, Block 13, R.P. 202, with the residence thereon, for the sum of \$3,500, and to attach the corporate seal thereto.

DON'T PLAY BLINDMAN'S BLUFF WITH YOUR INSURANCE

Be Sure To Get The Guaranteed Policy
 At The Lowest Cost

You cannot afford to grope in the dark with insurance protection. You must know exactly what you are buying. You want a guaranteed amount of protection at the lowest possible cost—a clean-cut, business contract without entangling conditions attached.

Ontario Equitable policies are for stipulated, guaranteed amounts. You are not required to run the risk of any speculative or estimated amount of protection, depending upon the profits the company earns. With the Ontario Equitable the sum is fixed, and you pay the lowest possible cost to obtain that protection.

When thinking of insurance, remember that the Ontario Equitable guarantees the amount of the policy; that the cost is as low as possible; that the investment offers the maximum of safety.

Leave All Your Old Ideas at the Showroom Door

UNLESS you have already examined the New Series Pontiac Six and driven it . . . your ideas of six-cylinder car value are due for radical revision.

Leave those old ideas at the showroom door. Come in and see the car. Then drive it.

Get the feel of the big, smooth six-cylinder engine, with its GMR cylinder-head. Let the car leap forward at a touch of your toe on the accelerator. Bring it to a swift stop with a gentle pressure of the positive four-wheel brakes.

And, all the time, experience the easy-riding comfort of the four Lovejoy Hydraulic Shock-Absorbers and the luxury of perfectly-appointed, beautiful Fisher bodies.

Then—learn Pontiac's amazingly low price—and you have discovered a six-cylinder value that upsets every preconceived idea you may have had.

Ask your dealer about the G.M.A.C. Deferred Payment Plan which makes buying easy.

BOY SCOUT COLUMN

1st Kelowna Troop

Troop First! Self Last!

Edited by "Pioneer"

June 12th, 1928.
 Orders for week ending June 21st, 1928:
 Rallies: None until further notice.
 Duties: Orderly Patrol for week, Wolves; next for duty, Owls.

If there are any Scouts who have not made their ticket returns by the time this Column appears, they are asked to do so without any further delay so that we may know just exactly where we are. We are indeed grateful to the public who rallied to our support and gave us the biggest evening audience we have yet had in the Scout Hall on Saturday evening, 16th adults and 128 children, a total of 288. The nearest to this was in 1926, when we had Sir Alfred Pickford as our distinguished guest, when we had an attendance of 161 paid admissions, but that year the attendance at the Saturday matinee and Friday evening performances gave us a grand total of 433. This year we had no matinee and the attendance on Friday evening was 121, made up of 62 adults and 59 children or a grand total for both nights of 409, the second largest total we have had in the Hall, which we feel very satisfactory.

In addition to those to whom we expressed our thanks at the Saturday performance for assisting us, we would like to include the Gyros and Messrs. Jones & Tempest for the loan of screens, Mr. Madding, of the Empress Theatre, for advertising our show, Dr. Wright for his stop-watch and Mr. L. O. MacGinnis for his "Make-up Box," and Sea Cadets Stirling and Watt and Mr. F. T. Marriage for their musical services. The supper given us and our visiting Scouts by our Ladies Auxiliary provided just the nice finishing touch to the day's activities, and I'll say we appreciated it.

It was indeed a pleasure to have our old Patrol Leader, Harry Campbell, with us on Saturday evening, and we are much obliged to Mrs. Wilmut, of the Kelowna Hospital, for lending us the wheel chair, which provided us with the necessary means of transportation for Harry. We understand that he had to be held down while the Patrol Relay Race was on and it looked as though Section "B" were going to be caught up!

It was the hardest kind of luck for the Owls in the rope climbing contest that Second Don Lucas should have fallen just at the finish, as undoubtedly they would have broken the still standing record of the Wolves established in 1924 of 1 minute, 13 3/5 seconds, but at the same time we congratulate the Eagles upon their win in the very good time of 1 minute and fifteen seconds. We feel quite sure that if any Patrol team would only practice for this competition a little earlier, the record would be smashed.

The next thing is Camp, to be held from either the 3rd or 4th of July to the 14th, and Patrol Leaders are asked to report to the Scoutmaster immediately as to what the attendances will be from their respective patrols with the reasons for non-attending. It is possible that both the Scoutmaster and ASM. Laidlaw will attend the Scouts' training camp to be held at Camp Byng from the 14th to the 24th August next. For this reason, therefore, at least 50 per cent of the present strength do not immediately express their intention of attending the Troop Camp, it may be cancelled altogether for this year. How would you like that?

OKANAGAN CENTRE

On Sunday afternoon a tennis match between teams from the Peachland and home clubs was played on the Centre courts, the former winning with a score of 8-4.

In the visiting team were Miss Drought, Miss Thompson, Mrs. Taylor and Messrs. Drought, Thompson and Taylor. Playing for the Centre were Messdames Gibson, Gled and Parker, Messrs. Logie, Rimmer and R. Wentworth.

The many friends of Mrs. Cheesman are glad to know that she is at home again and rapidly gaining strength after her long stay in the Hospital at Kelowna.

The district is inundated with Orientals who have been hired on various ranches for the thinning season, and the second spray for codling moth is being applied this week.

With the rapid growth and flowering of the new shrubs and plants on the tennis grounds, a great improvement is noticed; in addition new netting is being put up this week on the south and west sides of the courts.

Rev. W. Sadler, of Peachland, took the United Church service on Sunday afternoon last, in the absence of Rev. J. A. Dow.

Miss Hilda Copeland has for a holiday guest her cousin, Miss Copeland, of Victoria.

FURNISHED THE PROOF

The man before the magistrate was a stranger in the village, and he was most indignant that he should suffer the humiliation of his present position.

"The constable seems very certain about everything connected with my case," he sneered, "but there's one weak point in his defence. Why does he not call his fellow officer to corroborate what he says?"

"There's only one constable stationed in this village," said the officer. "But I saw two last night," indignantly asserted the prisoner. "Exactly!" agreed the officer. "That's the charge against you."

A carload of twenty purchased Jersey heifers, purchased by members of the Summerland Jersey Cattle Club from Bull & Sons, of Brampton, Ont., arrived safely at Summerland last week.

NEW SITE FOR R.E.C. SUMMER CAMP

Offer Is Accepted Of Facilities At Mabel Lake

A meeting of representatives from Enderby, Armstrong, Vernon and Kelowna, towns in the district covered by the Religious Educational Council for North Okanagan, which extends from Kelowna to Revelstoke, was held in Central United Church, Vernon, last Thursday, in order to elect officers for 1928 and to select a new site for the young people's annual summer camp, owing to the location formerly used on Okanagan Lake having become inaccessible. Mr. C. Fulton, President of the Council, was in the chair.

The subject of the summer camp was threshed out thoroughly and, before the location of a site was decided, a resolution was passed to the effect that the proposal of having several small camps be not entertained and that one central camp be established for the whole district.

After much discussion of possible camp sites on Okanagan, Woods, Mara and Mabel Lakes, it was moved by Rev. T. J. S. Ferguson, of Vernon, and Mr. T. F. McWilliams, of Kelowna, that the offer of Mr. H. M. Walker, of Enderby, allowing the use of a camp site and cabin at Dolly Varden Beach, Mabel Lake, be accepted. The resolution carried.

Another resolution accepted the dates assigned to the Okanagan district for camps by headquarters in Vancouver, namely, July 4th to 11th for the boys' camp, and July 11th to 19th for the girls' camp.

The camp fee for boys and girls was fixed at the same figure as in previous years, \$5.00.

A Camp Committee was appointed as follows, with power to add to its number: Miss Anderson, Rev. W. Stott and Mr. McLean, of Armstrong, and Mrs. Duncan, Rev. J. L. King, and Mr. H. D. Walker, convener of the Council. The following officers of the Council were elected for the ensuing year: President, Mr. T. F. McWilliams, Kelowna; Vice-President, Rev. J. L. King, Enderby; Secretary-Treasurer, Mr. D. T. Tingley, Kelowna; Committee, in addition to officers: Mrs. Wm. Duncan, Enderby; Miss M. Anderson, Armstrong; Mr. A. S. Hurlbut, Vernon; Rev. W. Vance, Revelstoke.

ACTIVITIES AT THE TENNIS CLUB

Arrangements Are Being Made For Interior Championship Matches

Thirty-two people played in the American tournament on June 4th, with the result that the leading couples in the two sections were as follows:
 Section 1: Dr. Underhill and Mrs. MacLaren, first. G. C. Wade and Mrs. Gardner tied with D. Loane and Miss J. Pease for second place.

Section 2: Herbert Aitken and Rex Lupton, two juniors, captured first place, H. J. Hewetson and Mrs. Pease being second.

In the play-off, the two boys won the first prizes and Dr. Underhill and Mrs. MacLaren, the second prizes.

On Tuesday, June 5th, four players from Salmon Arm, Mrs. Rattray, Miss Freeman, Messrs. Kennedy and Richards, motored to Kelowna to play against the Kelowna club, the latter winning by four matches to 3. The home team included Mrs. Gardner, Mrs. Tallyour, Messrs. A. E. Hill and F. Laxon. Four more men had been expected from Salmon Arm, and Messrs. R. H. Stubbs, N. DeHart, D. Loane and A. E. Pooley were chosen to play them.

A very neat schedule has been sent out by the Penticton Lawn Tennis Club, illustrated with a view of their new courts and fine new pavilion, for the Okanagan Valley tournament on June 28th, 29th and 30th. Quite a number of Kelowna players propose to take part.

At a meeting of the Kelowna Lawn Tennis Club executive, Mr. R. H. Hill was again chosen as Tournament Secretary for the Interior of B.C. championship events, to be played here from July 9th to 14th, inclusive. Mr. J. G. Brown, of Victoria, has kindly consented to act once more as Official Referee.

The committee has gone into the matter of seats for the public on finals day, and a scheme is being worked out that will provide ample shelter from the rays of the sun, should the weather be as hot as it was last year.

Indications already point to a good entry for the matches from many Coast clubs.

HOSPITAL BY-LAW

AMOUNT SET AT \$15,000

(Continued from page 1)

had to be sent to several government departments for approval, and they were now being blue printed at the Coast. Immediately the blue prints were available, they would be sent to the departments concerned.

As for the requirements of the School Board, the City Clerk reported that no request had been received as yet from the Trustees for submission of any money By-Law to the ratepayers.

The discussion crystallized into a decision by the Council to expedite submission of the By-Laws at as early a date as possible, and to restrict the amount of the one for hospital purposes to a maximum of \$15,000. This amount, plus the cost of furnishing and equipping the buildings to be erected, estimated at \$10,000, would represent Kelowna's share of the 50-50 plan, according to which the Provincial Government has agreed to contribute \$25,000 for further improvement and extension of the Hospital.

The Council adjourned until Monday, June 25th.

A Masonic Temple will be erected this year at Chilliwack at a cost of about \$12,000. The building will have a frontage of thirty-six feet and a depth of eighty feet. The finish will be in stucco and the architecture of Grecian design. An auditorium, measuring 36 x 50 feet, will be located on the ground floor, with ladies' and men's cloak rooms, rest rooms, kitchen, etc.

A lodge room in chapel style, also 36 x 50 feet, is provided for in the upper story, together with wardrobe lockers and a small banquet hall.

1ST RUTLAND TROOP

"Do A Good Turn Daily"

Orders for the week ending June 23rd

The Troop will parade on the School field on Friday at 7.45 p.m.
 Duty Patrol—Seals.

The Troop attended the 1st Kelowna's annual Entertainment at the Scout Hall on Saturday evening last, and enjoyed the varied programme given by their brother Scouts. The consensus of opinion was that this year's "show" was the best yet. We hope the financial result was as satisfactory as the event warranted.

Wolf Cubs

There was an attendance of ten Cubs at the regular meeting on Friday afternoon last. The time passed pleasantly and profitably with work on Tenderfoot tests and various Cub games.

A. W. Gray,
 S.M. and Acting C.M.

GLENMORE

Mr. and Mrs. Philip Ward and Mr. Jack Ward left on Sunday by car for a visit to Coast cities.

Mr. John Irving returned home from the Kelowna Hospital on Friday last.

Mr. Seeley, who made a good recovery after an operation for appendicitis at the Kelowna Hospital, returned home yesterday.

The Community Guild meeting was held at the home of Mrs. Percy Rankin on Tuesday afternoon. The attendance was rather smaller, but busy times on the ranches probably made the difference.

Miss Mildred Hume, who has been visiting her grandparents for some weeks, returned home on Saturday last.

Friends will be glad to know that Doris Ward, who has been seriously ill, has improved slightly.

On Friday last, the local baseball team met the Hornets on their own ground and came out on the short end 14-1.

On Tuesday they journeyed to Rutland and, after a very good game, lost out 5-4.

Hotkaps

AN INDIVIDUAL HOTHOUSE

FOR EACH AND EVERY PLANT

PROTECTS YOUNG PLANTS FROM FROST AND OTHER ELEMENTS. Matures Crops Earlier. Keeps Insects Out. Keeps Soil Soft.

It is doubtful if any automobile ever received as much "verbal advertising" as the Durant "65". Every new owner starts to talk about its remarkable performance, long before his car has gone the usual slow mileage . . . the first 500 miles.

So great and so powerful is this "verbal advertising" that the demand for these fast, economical cars promises to exceed all expectations.

You, too, will want one . . . and today is the day to order it. But whether you are ready to order one, or not . . . see it . . . drive it . . . and prove to yourself that the good reports you are hearing are true.

WHEN BETTER AUTOMOBILES ARE BUILT—McLAUGHLIN-BUICK WILL BUILD THEM

The Only Car with a Sealed Chassis
-fully guarded against dirt, dust and moisture-and offering protected performance

IT is the fashion of the day to place first importance on motor car beauty; and for this the alluring beauty of McLaughlin-Buick's smart, low-slung bodies by Fisher is largely responsible. But keep in mind that you get many things besides beauty when you buy a McLaughlin-Buick. You get unequalled riding ease—vibrationless performance—and above all the unique reliability of the world-famous McLaughlin-Buick Sealed Chassis and Triple-Sealed Engine.

Every vital part of the McLaughlin-Buick chassis is enclosed in dirt-proof, dust-proof, water-tight housings to assure reliability and long life.

And McLaughlin-Buick's proved Valve-in-Head Engine is fully guarded by crankcase ventilator, air cleaner, oil filter and gasoline strainer.

McLaughlin-Buick is the only car offering this twin feature as well as protected performance under all road and weather conditions.

Admire McLaughlin-Buick beauty—but insist upon McLaughlin-Buick dependability. It's a wonderful thing . . . even in these days when all cars are assumed to be dependable.

The G.M.A.C. Deferred Payment Plan offers many advantages to buyers of McLaughlin-Buick cars.

Gilbert: "Horace is very religious, isn't he?"

Morgan: "I should say he is. Why, he even wears a herringbone suit on Friday!"

A motor stage is now operating between Vernon and Edgewood, connecting on Mondays, Wednesdays and Fridays with the southbound steamer on Arrow Lakes.

OKANAGAN MISSION

Mrs. J. Stallard returned home on Friday from the Coast, where she had been spending the last few months.

Last Saturday, Mr. "Billy" Hay held his coming of age party at the Eldorado Arms. Twenty-eight people sat down to dinner, which was thoroughly appreciated by all. After several congratulatory speeches had been made, one by Mr. A. S. Burdick being much applauded by everybody, dancing was indulged in till midnight. Light refreshments were then served and everyone departed for their homes after having thoroughly enjoyed themselves.

Arrangements are being made to hold a dance at the Eldorado Arms in aid of the Ellison Ward of the Kelowna Hospital. Details will be announced in next week's Courier.

All motorists of Okanagan Mission, we feel sure, are pleased that the road between here and Kelowna has now been put in good condition. The greater part of the work was done by the Road Superintendent but a small portion of it was done when the road was in very bad condition by one of our local residents. Two weeks ago we called attention to this in these notes and asked those who appreciated the work to contribute the small sum of 50c to help cover the cost. It is not too late yet, as the list is still at Mr. Hall's store, so please come forward with your 50c.

Visitors to the Eldorado Arms during the past week include Mr. and Mrs. Con. Jones and Mr. F. A. Jones, of Vancouver, Mr. and Mrs. J. N. Harland, of England, Mr. and Mrs. Henderson, of Grand Forks, Mme. Sanderson Mengin and daughter, of Paris, and Mrs. L. I. Orr-Ewing and Mr. L. A. Malleson, of Okanagan Landing.

The building of the annex to the Eldorado Arms is now completed. This makes a total of twenty-five rooms available for guests staying at the hotel.

The proposed additions to the club house of the Okanagan Mission Tennis Club have now been completed. The original club house has been extended to the edge of the courts and enclosed with mosquito netting. This last improvement will add greatly to the comfort of the spectators. The work was all done by members of the club.

One of Napoleon's hats, a well-worn specimen, has been sold at auction for \$15,000. The hat will not leave France, since it was announced that the purchaser was a French army officer. The hat, in the shape made famous by Napoleon, was accompanied by a certificate guaranteeing that it had been sold by his valet in 1814 to an old clothes man.

England can claim to be the pioneer nation for women aviators, two of whom hold commercial licenses for flying. France has, however, the first woman engaged in aeroplane constructional engineering.

New Assistant: What is in that red bottle?
Old Hand: That's the medicine we give customers when their prescriptions are illegible.

7.30 p.m., Evening Worship. Sermon subject: "Cowards and Heroes, or does the Christian Religion remove difficulties?"

A very important meeting of all members and adherents of First United Church will be held in the auditorium on Monday evening next, 18th inst., at 8 o'clock sharp.

WATER NOTICE (Diversion And Use)

TAKE NOTICE that David Crawford, whose address is P.O. Box 142, Kelowna, B. C., will apply for a licence to take and use 2,000 and 1,500 gallons per day and 50 acre feet of water out of three springs situated on the North-West 1/4, Section 29, Township 29, which flows north-westerly and sinks into ground on the said quarter section.

The water will be diverted from the springs at a point described as follows: (1) midway between Map 8410, (2) 400 feet east and 150 feet north of Spring No. 1, (3) 400 feet east and 100 feet south of Spring No. 1, and will be used for steam, domestic and irrigation purposes upon the land described as part of North-West 1/4, Section 29, Township 29, Osoyoos.

This notice was posted on the ground on the 22nd day of May, 1928.

A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Vernon, B. C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

The date of the first publication of this notice is May 24th, 1928.

DAVID CRAWFORD, Applicant.

It is expected that Sunday's services will be broadcast over Radio 10AY.

June 20th. Acts, ch. 5, vs. 17-32.

Every Revelation of the Nature, the Power, or the Love of God, is a call from God to service, and not merely a gift for our own personal advantage. We receive in order to distribute. Hence the visions granted to Moses, Isaiah and Ezekiel were immediately followed by a call to act in the light of that vision. The message of the Incarnation evoked the willing and immediate surrender of the Virgin Mary to the great task before her. The gifts of the Kingdom of God made the recipients servants and stewards. The revelation of the Christian Faith makes the Church responsible for proclaiming

it to the whole world lying in darkness material, as they are discovered, be- and ignorance. In like manner the comes a call to the finders to proclaim knowledge of the working of the spirit- to all men the fulfilment of the promises ual laws and their supremacy over the of Christ.

Our leading Industry

WHEN 38c. of every dollar paid in industrial wages and salaries in British Columbia comes from lumbering, her ten-year production increase of 138.7 per cent. is vitally important to everyone.

Thirty per cent. of our Province's entire industrial production of 251 million dollars in 1926 was contributed by lumbering and its allied industries. British Columbia now ranks third in the Dominion in industrial importance, and forest products dominate.

Involved in British Columbia's lumbering industry is capital of more than 100 million dollars . . . 20,000 people are employed . . . 330 mills operated.

Without question this gigantic business is destined to continue at the same pace.

Climate, soil and drainage have produced our vast forests of soft woods . . . the greatest in the world! One-third of the British Empire's entire timber supply is in British Columbia. Today, the demand for soft woods is four times that of hard woods . . . and with the last great stand of soft woods located in our Province, continued progress and prosperity are certain.

Great as our timber stands are, our government realizes the necessity of safeguarding the future of this vast industry and is devoting much time, study and thought to the question of scientific reforestation, fire prevention and conservation.

Read these announcements and understand your province's progress . . . clip them out and send them to friends. If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Province!

Lumbering brought 84 million dollars to British Columbia in 1926 (the value of the cut that year), an increase of 49 million dollars over 1916. Every year more than 30 million dollars worth of supplies are purchased to enable this great industry to carry on.

Foreign markets have been sought . . . and captured. Water borne export of lumber has enjoyed exceptional growth. Ships laden with 2,616,419,000 feet board measure left our ports during 1922-1926 . . . an increase over the period of 1912-1916 equal to 984%. The log scale jumped 111% during the same period!

This activity represents real money in constant circulation. It keeps thousands of men busy . . . influences every phase of commercial life . . . builds markets for our farm products . . . spells "BRITISH COLUMBIA" the world over!

Add to this the sash and door factories, and pulp and paper production, which alone jumped from \$15,450,000 in 1916 to \$72,327,000 in 1926, and you have an idea of the enormous importance and far reaching influence which this, our chief provincial enterprise, is bound to exercise on the welfare and earnings of each and every citizen.

SUBSCRIBE TO THE COURIER**THE KELOWNA COURIER**AND
Okanagan Orchardist.Owned and Edited by
G. C. ROSE**ADVERTISING RATES**Contract advertisers will please note that their
advertisements for delivery at change of day
must be placed in the office of the publisher by Mon-
day night. This rule is in the mutual inter-
ests of publisher and advertiser, and to avoid con-
fusion. On Wednesday and Thursday and
consequent night work, and to facilitate pub-
lication of the Courier on time. Changes of
Tuesday as an accommodation to an adver-
tiser confronted with an emergency, but on
no account on Wednesday for the following
day's issue.Transient and Contract Advertisements—Rates
quoted on application.
Legal and Municipal Advertising—First inser-
tion, 10 cents per line, each subsequent inser-
tion, 5 cents per line.
Classified Advertisements—Such as For Sale,
Lost, Found, Wanted, etc., under the heading
"Want Ads." First insertion, 15 cents per
line; each additional insertion, without change
of matter, 10 cents per line. Minimum charge
per week, 30 cents. Cost five words to
line.
Each initial and group of not more than five
figures count as a word.
If no desired, advertisers may have replies
addressed to a box number, and their private ad-
dresses, or delivered on call at office. For this
service, add 10 cents to cover postage of
filing.**SUBSCRIPTION RATES**
(Strictly in Advance)
To any address in the British Empire, \$2.50
per year. To the United States and other
foreign countries, \$3.00 per year.The COURIER does not necessarily endorse
the sentiments of any contributor article.
To ensure acceptance, all manuscripts should be
legibly written on one side of the paper
only. Typewritten copy is preferred.
Amateur poetry is not published.
Letters to the editor will not be accepted for
publication over a "nom de plume" and the writer's
correct name must be appended.Contributed matter received after Tuesday night
will not be published until the following week.**THURSDAY, JUNE 14th, 1928****MARKETING
CONTROL**Elsewhere in this issue will be found
a letter from Mr. Isaac Cousins, of
Peachland, attacking the principle of
the Produce Marketing Act. The neces-
sary liberal amount of space is ac-
cording to the letter of Mr. Cousins and
the accompanying clippings, simply be-
cause it has been the custom of The
Courier from its earliest days to open
its columns to discussion of both sides
of public matters. As a matter of edi-
torial policy, The Courier has supported
consistently for many years the prin-
ciple of co-operative marketing of nat-
ural products, and it sees in the Produce
Marketing Act only a logical develop-
ment of that principle, by means of
which order has been brought out of
chaos in the marketing of fruit and
vegetables and a reasonable, living pro-
fit has replaced red ink, without, at the
same time, any undue enhancement of
prices to the consumer.If the consumer on the prairie at
times has just complaint as to the prices
he pays for fruit, it will be found that
the cause is not the slight measure of
protection afforded by the Produce
Marketing Act, anti-dumping duties or
other legislative enactments, but due to
the looting hands of the intermedi-
aries who take their toll out of the
purchaser's dollar before the remaining
fraction of it reaches the pocket of the
producer. Instead of agitating against
the Produce Marketing Act, abolishing
enforcement of anti-dumping and ob-
jecting to a seasonal tariff, consumers
should join with the producers in an
agitation for a reduction of freight and
express rates on food stuffs and co-
operate in an effort to reduce the num-
ber of parasitical middlemen so as to
secure more direct contact between the
farm and the home, with fewer greedy
hands reaching out for a piece of the
farmer's hard-earned returns.**BOARD OF TRADE
DISCUSSES LAKE LEVEL**

(Continued from Page 1)

been given publicity in the bulletin, and
also had been given to the daily press.
Mr. Elliott considered that local busi-
ness men would be unwise to extend
any patronage to the firm in question,
as the effect of their statements was to
divert traffic from the valley, and Mr.
Spurrer joined in the denunciation.The chairman promised that the Ex-
ecutive Council would deal with the
matter and take such action as might
be advisable.
As there seemed to be a lack of au-
thentic bulletins on the matter of roads,
it was decided, upon motion of Messrs.
Groves and Rees, to have the "Secre-
tary" advise the Automobile Associa-
tion that the lakeshore road is now
open.**Ferry Service**General Harman wanted to know if
it would be possible to have a contin-
uous service on the Kelowna-Westbank
ferry between 7 a.m. and 9 p.m.
Mr. Elliott replied that the service
was continuous at present, except at
12 and 6 o'clock.General Harman thought that it
should be possible to eliminate these
two breaks in the service.
Mr. Elliott said the two crews on the
ferry-boat were working their full time
of forty-eight hours a week and occa-
sionally longer, and it would not be
possible to add to the service without
putting on an extra crew, the cost of
which would be out of proportion to the
gain in service. Special ferries could
be obtained from private individuals
at any hour when the government ferry
was not operating. The public was now
getting thirteen or fourteen ferries
daily instead of four or five as in past
years. A special ferry late on Saturday
night had been instituted as a special
concession to shoppers, to whom it was
a great convenience, but it was operated
at a loss, as on its last trip only one
car was carried, while there were anumber of foot passengers at ten cents
each.**Protest Against Increase in Express
Rates**Mr. L. R. Stephens enquired whether
the Board had taken any action to
lobby a protest against the proposed in-
crease of express rates, and, the reply
being in the negative, he said that ap-
parently few people had been notified
of the application for increase of rates
to be made to the Railway Commission,
presumably because out-of-date mail-
ing lists several years old had been
used. The express companies claimed
that they had been suffering losses run-
ning between \$200,000 and \$1,000,000
during the past five years and they
were now asking for an increase of 15
per cent in second class rates and of 10
per cent in commodity rates. The only
brief that had been submitted in op-
position, so far as he knew, was by the
B. C. Fruit Growers' Association. The
notice given was very short and all
briefs had to be submitted to the Com-
mission by June 15th. The second class
rates were nearly all concerned with
food products. No increase was being
asked on the first class rates, which
applied largely to manufactured arti-
cles. He urged that a protest against
the increase be wired by the Board to
the Railway Commission.Mr. Capozzi supported Mr. Stephens
and stated that the Retail Merchants
Associations in various cities were pro-
testing against the increase.**Restriction of Stores in Residential
Areas**Mr. Capozzi brought to the notice
of the members the increasing number
of small stores which were starting up
in residential areas and were impairing
the value of adjoining property. He
thought the City Council should exer-
cise a measure of control in such cases.
Mr. Groves cordially agreed as to
the need of restrictive action, and he
moved, seconded by Mr. Rees, that the
City Council be asked to put into effect
the Town Planning Act or a zoning
scheme.Ald. Meikle stated that the matter
had been discussed by the City Coun-
cil, and steps had been taken to put
zoning into effect.
The resolution was then put and car-
ried.**New Publicity Folder Now Available**The Secretary announced that sup-
plies of the new publicity folder issued
by the Board were now available and
copies would be supplied to any citi-
zens who desired to send them to en-
quirers or prospective settlers.Mr. Elliott also stated that the Okana-
gan-Cariboo Trail Association, which
was very attractively illustrated, was
now ready and copies could be obtain-
ed from Mr. Barton.There being no further business, the
meeting adjourned.**ANNUAL MEETING OF
GROWERS' EXCHANGE**

(Continued from page 1.)

Election Of Auditor
Upon motion of Messrs. Aitkens and
Gowry, Mr. C. H. Jackson was unani-
mously re-elected as Auditor for the
ensuing year at the same salary as last
year, viz. \$400.**Sanction Of Expenditures For
Buildings**
Messrs. G. A. Barrat and A. C.
Loosemore moved the following resolu-
tion, of which notice had been given:
"That the Rules of the Exchange be
amended by adding, with or without
modification, the following, to be
known as Rule No. 65A: Any expendi-
ture for new buildings amo-... to
more than \$5,000 for one item shall be
sanctioned by the Shareholders before
being authorized by the Directors. This
shall not apply in cases of a replace-
ment of any building which becomes
destroyed by fire."The resolution was carried unanim-
ously.**Expression Of Sympathy**Upon motion of Messrs. H. B. D.
Lyson and Dalglish, it was decided
to convey the sympathy of the mem-
bers of the Exchange to Mrs. P. A.
Lewis and family upon the bereave-
ment sustained by them through the
death of Mr. P. A. Lewis, who was a
member of the Exchange.**American Practice As To Jonathans**Mr. Hewettson wanted to hear from
the delegates who went to Wenatchee
to make enquiry as to methods of hand-
ling Jonathans, and Mr. Barrat was
called upon by the chair.Mr. Barrat said that not much could
be learned at Wenatchee, as the prob-
lem there was entirely different from
what it was in the Okanagan. The Jon-
athan was the first apple to be handled
in any volume, as they did not have the
McIntosh to dispose of as here. There
was a good demand for the early Jon-
athans, and it was possible to get them
out of the way of later apples. Still,
they were urged on to the market. An-
other feature was that there was not
the same amount of breakdown as in
the Okanagan.The finding of the delegation was
that not much could be done than to
speed up the sale of Jonathans and
also utilize cold storage as much as
possible. While the trip was not pro-
ductive of much information in regard
to Jonathans, the delegation had ob-
tained quite valuable information on
other points.Answering a question by Mr. E. B.
Powell, Mr. Barrat said the aim of
the American growers was to get their
apples into cold storage not over
twenty-four hours after picking, and
most of their apples were shipped un-
der ice. If all the McIntosh and Jon-
athans in the Okanagan had to be
handled in this way, it would involve a
tremendous increase in the provision
of facilities.Answering a question as to whether
the volume of Jonathans was increas-
ing, Mr. Barrat stated that the volume
of Jonathans last year was about 50
per cent that of 1927.
Capt. Bull said that the production of
Jonathans was decreasing largely in the
Rutland district, owing to trees beingtaken out or regrafted. He was work-
ing over his own trees and was trying
to eliminate the bulk of the Jonathans.**Date Of Annual Meeting**Mr. Corner pointed out that it was
a bad time of year at present to hold
the annual meeting, as the growers
were very busy with spraying and other
work. He thought it should be held a
month later.The chairman said that, if held a
month later, the directors could not be
chosen in time for the Associated Grow-
ers' meeting.Mr. Barrat could see no objection to
election of the directors for Central at
the interim meeting held in the spring,
leaving the election of the local board
to the annual meeting.**Vote Of Thanks To Board**Upon the proposal of Mr. Dalglish,
a hearty vote of thanks was passed to
the Directors for their services during
the past year.**Central Affairs**Although Mr. E. J. Chambers, Presi-
dent, was in attendance, it was dele-
gated to Mr. Barrat to deal with the
annual report on the operations of the
Associated Growers, Ltd., copies of
which had been distributed. He ran
over the majority of the report other
than the figures of the balance sheet,
making explanations and answering
questions.**Making Products Attractive To Buyers**
Referring to a statement in the re-
port that "it is obvious that every pos-
sible effort must be made to improve
the quality of our products and to pack
them in such a manner as to make
them more attractive to the buyers,"
Mr. Hewettson enquired as to what sug-
gestions were offered along such lines.
Mr. Barrat said that improvement of
the pack was always under considera-
tion. It was proposed to use printed
wraps this season, which would entail
an additional cost of about 1 2/5 cents
per box, but it was expected that fruit
so packed would bring a substantial
premium. This step had been urged by
their British agents, who had even of-
fered to pay part of the cost, as they
could get an enhanced price. The de-
sign on the wraps would be printed in
dark blue and would incorporate the
O.K. brand, a maple leaf, "Empire
Product" and "Canada." It was also
proposed to have the plain wraps tinted
the same colour as the oiled wraps, in
order to preserve uniformity of ap-
pearance in packing.**Pool Charges**
Mr. Barrat said the total figure of
1234 cents for pool charges was the
average for all varieties, the figure
varying for each variety according to
storage and other charges.
Adjournment was taken until 1.30
p.m.**Afternoon Session**The attendance reached its maximum
during the afternoon session, when a-
bout forty were present.Capt. Bull expressed the opinion that
the total of just over 60 cents, repre-
sented by the combined Central pool
and handling charges and local packing
and other costs, showed very creditable
management.**President Chambers**Invited to speak, President Chambers
said that the small attendance was it-
self evidence of satisfaction on the part
of the growers with the management
of their business.Prospects this year were a little more
difficult to forecast than last year, when
production was below the average.
There were indications of a good crop
this season in all areas, although at
as large as was promised by the show
of blossoms.The Associated Growers would han-
dle about the same proportion of the
whole tree fruit crop of the Interior as
last year, viz. about 65 per cent.
In regard to the handling charges, as
referred to by the chairman, he did not
think that any other selling organiza-
tion could show results that would
compare as favourably, and he quoted
from the contract of a firm of inde-
pendent shippers to show that they charged
60 cents per box for domestic and 70
cents for export fruit, exclusive of pool
charges, as against an Associated and
local charge of 47 cents, exclusive of
pool charges. It was thus quite evident
that, if the Co-operative could sell
fruit at the same price as the Indepen-
dents, it would be able to return more
money to the growers than the inde-
pendent operators. With the rules of
the Committee of Direction enforced,
he did not see how any independent
could get a better price for fruit than
the Associated.**Dumping**The position in regard to dumping
duty was very unsatisfactory, and it
was difficult to say just how things
stood at present. Since a large deputa-
tion had waited upon the Cabinet at
Ottawa and had been assured that the
only change in administration of the
regulations would be that the whole
Cabinet would exercise the powers for-
merly used by the Minister of National
Revenue, the situation had changed and
the Department of Justice had ruled
that certain amendments to the law
must be made before the dumping
clauses could be enforced. On the
other hand, within the past two or three
days private information had been re-
ceived that the dumping duty would be
enforced upon importations of straw-
berries and raspberries.He believed that growers should en-
deavour to work out a solution of the
matter that would be acceptable both
to producers and consumers. He fav-
oured a specific duty by quantity upon
all fruit and vegetables instead of an
ad valorem duty. This would be more
satisfactory to consumers as well as to
producers, as in times of scarcity and
high prices the amount of the duty
would be fixed instead of varying with
the value of the imported produce. He
also favoured the dumping duty being
applied as a certain percentage of the
specific duty, such as 15 or 20 per cent
of the amount of the specific duty. The
Associated Growers had asked the Min-
ister of National Revenue for full in-
formation as to the present position,
and as soon as any information was re-
ceived it would be given out.**Markets**Domestic market indications were
good. Prospects for this year's crop
on the prairies were good, following an
excellent crop last year, and financial
conditions there were good. The fruit
crop in the Old Country would be

TENDERS WANTED

Tenders will be received by the undersigned, up to June 15th, 1928, for the putting up of 40 acres of hay. The contractor to supply his own horses and equipment. The lowest or any tender not necessarily accepted. For further particulars apply to ANTHONY CASORSO

Phone 19-L2. P.O. Box 659, Kelowna, B.C. 42-3c

A lady engaged a new gardener, and after breakfast one day she sauntered out among the flowers. Seeing the new man hard at work, she said:

"Well, and how is my Sweet William this morning?"

"First rate, thanks, ma'am," replied the man of the spade. "But how did you know my name?"

"Wheat sown on the farm of Mr. J. J. Ball, in the Armstrong district, on April 22nd, stood 12 inches in height on June 1st."

Local and Personal

Mrs. R. Whillis went to Victoria on Wednesday.

Mrs. R. W. Carruthers left on Monday for the Coast.

Mr. I. Cousins, of Peachland, paid a visit to town on Monday.

Mrs. Leo. Hayes was a passenger by C.N. to Victoria yesterday.

Mrs. Scrim and Miss Smith went to Vancouver today by Canadian National.

Cherries are now moving by express, most of the shipments being made to Vancouver.

Mr. F. A. Martin returned on Tuesday from a ten days holiday spent at the Coast cities.

Mr. J. M. Horn, General Freight, C.N.R., Vancouver, spent Tuesday and Wednesday in the city.

Mr. W. O'Neill, manager of the Kelowna Growers' Exchange, left on Monday for a visit to Vancouver.

Mr. and Mrs. O. Dendy, of East Kelowna, were passengers to East Vancouver by Canadian National on Monday.

Mr. F. W. McLaine, of Vancouver, spent a few days in town over the week-end, registering at the Lakeview.

Miss L. M. Carver left on Saturday for Vancouver en route for England via the Panama Canal, sailing Monday.

Messrs. Edwards, H. Tresswell and party, who visited the McCulloch Lakes over the week-end, reported the fishing fair.

Mrs. G. A. McKay, with Miss Iris McKay, left on Tuesday for Winnipeg. Mrs. McKay expects to be away for the summer months.

Mr. T. J. How, formerly of Kelowna, who is now farming in the Armstrong district, was a week-end visitor to town, staying at the Lakeview.

Motoring to Palo Alto, California, Mr. and Mrs. J. Silcock left on Sunday for a month's visit. They were accompanied by Mrs. Norman Dunn and Miss Dorothy Dunn.

On June 2nd a very delightful surprise party was held at the residence of Mr. and Mrs. G. A. McKay, commemorating them on the 20th anniversary of their wedding day.

Mr. G. W. Hammond and Miss Ella Patterson are attending the Grand Lodge conventions of the I.O.O.F. and Rebekahs, at Chilliwack this week, as delegates from the Kelowna lodge.

Several fishing parties spent the week-end at Penanant Lake. Messrs. Percy and Archie Rankin reporting one of the best catches of the season, while Capt. H. V. Acland and party, Messrs. Fred Berard, H. and E. Thompson, and Mr. and Mrs. W. Spears all had very good luck.

Mr. and Mrs. Cliff McMurray, of Calgary, are visiting Mr. and Mrs. A. H. DeMara for a week. They motored to Vernon on Wednesday and were much impressed with the orchards and the scenery along the lakes. Mr. and Mrs. McMurray are making an extended motor trip down the Coast.

Messrs. E. J. Kirkham and Ernest Moreland motored over from trail at the week-end and spent several days in the local scenes in Kelowna. They travelled via Rossland and Cascade, and report the highway between these points to be free of snow and in fairly good condition except for a few small wash-outs.

The charter will be presented with due formality to the new local Rotary club at a function at the Eldorado Arms on Tuesday, June 19th, when Mr. Alex. R. McFarlane, of Vancouver, will represent the District Governor, Mr. H. H. Manny, of Seattle, and Rotarians and their wives will be present from other points as well as Kelowna.

Lovers of flowers are reminded of the spring show of the Kelowna and District Horticultural Society, to be held in the Morrison Hall on the afternoon and evening of Saturday next, June 16th. The show will be open until 9 p.m., and it is expected that there will be a splendid display of the products of Kelowna gardens, for which the weather has been especially favourable this spring.

Mr. Frederic White, who has travelled widely throughout the world for twenty-five years, will give one of his famous Travelogues on the subject of India, in the Public School Auditorium, next Thursday evening, under the auspices of the Kelowna Parent-Teacher Association, with a matinee for children only, at 4 p.m., on "Beautiful Italy." Both lectures will be profusely illustrated with coloured pictures.

The new publicity folders prepared by the Kelowna Board of Trade are now ready for distribution. They show very attractive pictures of the district on one side, with descriptive letterpress on the other conveying much interesting and valuable information in concise form. Any one who is interested in sending such matter to enquirers or prospective settlers may obtain copies upon application at the Board of Trade office, Bernard Avenue.

Good progress is being made with completion of the new Willow Inn, which is being built opposite the C.P.R. frontage, and the Kelowna-Westbank ferry wharf. The handsome brick building has vastly improved the appearance of the marine approach to the city, converting an unprofitable and unsightly vacant lot into the site of a splendid, up-to-date hotel. The hotel, which every convenience is being arranged for guests. The lounge on the first floor will be furnished so as to provide real home comfort, while the spacious dining-rooms and screened verandah overlooking the lake will be exceptionally pleasing. It is hoped by the management to have the building completed and ready for business by July 15th.

Miss Gwen Lowery, who was so successful at the recent Musical Festival in Vancouver, winning both the piano forte sight reading and sight reading accompaniment in classes under nineteen years, has just received the news from the Secretary, with the congratulations of the Committee, that she gained the highest marks in the eleven classes, vocal and instrumental under nineteen years, and secured the coveted scholarship valued at \$180, presented by the Pitman Commercial School, Vancouver.

Typing awards at the Pitman Commercial College for May are as follows: Miss Claire Roberts, Underwood Proveny Certificate for typing 32 net words for fifteen minutes; Miss Nellie Dore, Remington Silver Medal, for typing 50 net words for ten minutes, with only three errors; Miss Viola Person, Remington Primary Certificate, for typing 34 net words for ten minutes, with only two errors. Short-haul certificates awarded are: Miss Nellie Dore, Miss Grace Watt and Miss Stella Lupton, Sir Isaac Pitman's Theory Certificate; Miss Joyce Smith, Sir Isaac Pitman's Elementary Certificate.

The identity of the tugboat to be placed on Okanagan Lake by the Canadian National Railways in connection with their barge service has been revealed as the Radius, which was built at Vancouver in 1923 for Capt. J. A. Cates, who was previously a resident of Kelowna for a few months after disposing of his large interests in Bowen Island. The tug is of wooden construction, fifty-three feet long, fourteen feet beam, thirty-three tons register, is Diesel-engine and is said to be a very powerful craft for her size. She met with disaster in a collision off Prospect Point a year or two ago, when she was sunk, but she was raised and repaired by the marine underwriters to whom she was abandoned by the owners.

Sold later to the Dominion Tug Co., she has been purchased from that company by the C.N.R. The vessel will be dismantled for transportation by rail, but can be put into service quickly after her arrival here.

BOY SCOUTS IN GOOD FORM AT DISPLAY

(Continued from Page 1)

The times of other teams were: Beavers, 1 min., 22 and 2-5 secs.; Wolves, 1 min., 20 and 4-5 secs.; Otters, 1 min., 19 and 2-5 secs.; Cougars, 1 min., 19 and 4-5 secs., and the Eagles, who were declared winners with the time of 1 min., 18 secs. Scouts rendered "The Desert Song" in very effective Bedouin garb of flowing white robes and head-dresses, amid an Oriental setting of palms, squatting on the ground as they sang. In addition to being very picturesque, the number was sung in excellent style.

An exhibition of building a "monkey bridge" by a squad of ten Scouts under the direction of A.S.M. James Laidlaw was a very smart piece of work. Three parallel ropes were stretched across the floor of the hall and transverse lashings of light cord were applied by the Scouts. The ends of the cables were then hoisted and attached to strong poles placed at right angles in the gallery. The bridge then took the form of a V, with the point downwards, and the ten Scouts showed how practical and strong it was by walking out together on the bottom cable, using the other cables as hand rails. While the ropes were being slung the orchestra played a fox trot, "Lucky Lindy."

The violin quartette gave a sympathetic interpretation of "A Celtic Lullaby," by Gilbert Beard. Much merriment was provided by a sketch in two acts, "Across the Tea Cups—A Comedy of Manners," in which Scouts Wm. Cross, Ted. Dodd, Boyce Gaddes, Harry Lawson, David Campbell and Wilfred Burnham took part. All the boys appeared in feminine roles, and they acted their parts with astonishing fidelity. Ted. Dodd being especially good as Mrs. Goudus, the hostess. The first act showed a really polite afternoon tea party, with the usual exchange of small talk and gossip, but in the second act the same scene was enacted with the characters speaking in their really thought, with most amusing results.

The concluding item, a relay pursuit race between "A" and "B" Sections of the Troop, caused tremendous excitement amongst the supporters of the contestants, and the hall resounded with shrill cries of encouragement and "ragging" of the other side. The result was declared a tie by Scoutmaster Weddell.

The Troop then formed up at the salute while "Last Post" was sounded, and with the singing of the National Anthem a very successful entertainment came to a close.

The attendance numbered 121 paid admissions on the 28th of May, Saturday, and the continuance of the customary Saturday matinee apparently brought about no prejudicial results.

ANNUAL MEETING OF GROWERS' EXCHANGE

(Continued from page 4)

lighter than last year, allowing of a larger volume of importation. The British market was not so satisfactory last year as had been expected, owing to larger importations of American apples than had been reckoned upon, and there was also some breakdown in the B.C. exports. There was need of more efficient inspection, the solution of which, he believed, lay through building up efficiency of the government service rather than through inspection by the shippers. Fruit Commissioner McIntosh had promised betterment this year, and had also held out the prospect that the inspection charge might be reduced from \$5 to \$4 per car.

The apple box was much more desirable from the jobbers' point of view as a package for loose apples than the crate, and it was likely that Mr. McIntosh would grant permission to use boxes, so that crates could be dispensed with.

Printed Wraps
The Empire Marketing Board was waging a valuable campaign of publicity for Empire-produced goods, and if

MARRIAGE

Reed—Taylor

(Contributed)

The church of St. Stephen, Mount Newton, Vancouver Island, was the scene of a wedding of great interest on Friday, June 1st, when Sylvia Leonard, elder daughter of Mr. and Mrs. Lionel E. Taylor, of "Wrentham," Saanichton, and formerly of Kelowna, was married to Mr. Guy Humphreys Reed, third son of Major W. L. Lud, aged 24, O.I.E. V.D., and Mrs. Reed, of Kelowna, by the Rev. J. S. A. Bastin, Vicar of the Parish.

The church, which is the oldest in British Columbia, was beautifully decorated for the occasion by friends of the bride.

The bride, who was given away by her father, was attended by two charming little flower girls, Miss Mavis Taylor, sister of the bride, and Miss Cicely Bastin. The bridegroom was supported by Mr. Maurice Crehan, of Vancouver, as best man.

After the ceremony a reception was held at the residence of the bride's parents and was attended by nearly a hundred guests, many being old friends from Kelowna, including Major and Mrs. Lindsay Reed, Mr. Dyrke Reed, Mr. and Mrs. F. A. Taylor, Mr. and Mrs. and Miss Godwin, Mrs. R. N. Dundas, Mr. and Mrs. G. Challenor, Mr. and Mrs. J. C. Anderson, Mrs. and Miss W. B. Pease, Mr. and Mrs. C. Fuller, Mrs. Woodmass, Mr. and Mrs. L. G. Bristow and Mrs. L. C. Ciesla. The happy couple left on a motor tour up the Island and on their return will take up their residence at Shawinigan, Vancouver Island.

advantage was to be taken of it, printed wraps would be necessary. The Merchandise Marks Act also provided for the marking of packages. He felt that sentiment in the Old Country was trending towards the purchase of Empire-grown fruit, and that our export trade would profit by this tendency.

Mr. Chambers was cordially applauded at the conclusion of his remarks.

Election Of Directors

President Bull announced that no nominations had been received this year for the directorate, which entailed continuance of the old Board in office, but he had thought it advisable to obtain legal advice, with the result that Mr. T. G. Norris had advised that a ballot be taken to determine the length of term of office of the directors. This would be done forthwith, and he appointed Messrs. Lyons, Powell and Maxwell as scrutineers.

The result of the ballot was the choice of Capt. C. R. Bull and Mr. Barrat for a three-year term, Messrs. A. C. Loomis and F. A. Taylor for a two-year term, and Mr. K. Iwashita for a one-year term. Capt. Bull and Mr. Barrat were elected as representatives to Central.

While the ballots were being counted other matters were discussed.

The Pear Pack

Mr. Dalglish said the pack of pears last year had been said to be bad, yet the Kelowna pear pack had a very good reputation on the prairies, and it looked as though Kelowna was sending out good pears while other packing houses were not, thus pulling down the average for Kelowna. He was anxious that the poor pack of pears should be traced and the houses concerned brought to time, and he wished to know if pears were to be sent out under the O.K. brand.

Mr. Macfarlane stated that in one case within his knowledge three different varieties in one box had been received from Summerland, and the pears were small and badly packed.

Mr. Chambers admitted it was true that Kelowna sent out a better pear pack than other locals, but the Associated was trying to do everything possible to improve the situation, and more inspectors were being put on. Some of the locals undoubtedly had a poor pear pack and would be checked up. A statement made by a previous speaker that pears did not get the same attention as apples applied to the growers as well as the packing houses. The O.K. brand was on the pears packed last year.

Government Inspection Criticized

Mr. C. Atkin asked what was government inspection really worth. He understood that it had cost \$15,000 last year, yet the fruit was sold in the Old Country on the basis of the condition in which it arrived there, so that government inspection in this country was of no value for fruit exported.

Mr. Chambers replied that government inspection of fruit would be worth hundreds of thousands of dollars to growers, if made efficient. Government inspection of other commodities, cheese, for instance, had been very valuable. Efficiency was the whole question. The Fruit Branch should raise the wages of the inspection staff by fifty per cent, which would raise the standard of efficiency likewise.

Mr. Atkin returned to the charge, declaring that he did not consider the fee of \$5 per car for inspection brought any benefit when the apples were inspected here but sold in the Old Country.

Mr. Chambers retorted that the fact that the fruit was Government-inspected established confidence in the mind of buyers.

To this Mr. Atkin rejoined that the condition of the fruit was what interested the buyer, not the number of government certificates on the box.

If such were the case, said Mr. Chambers, the same applied to labels, corrugated board, etc. He believed that the money for government inspection was well spent and that, if a little patience was exercised, the inspection would be made really efficient.

A Question Of Compensation

Mr. Powell put forward the question of compensation for growers of McIntosh in the event of the possibility of a quantity of that variety not being packed in order to permit of pushing forward Jonathans, and President Bull advised that the matter would receive consideration.

Foreign Markets

Mr. Chambers was asked several questions as to foreign markets, in reply to which he stated that the favoured nation treaty between the United States and Germany gave a great advantage to American apples over Canadian fruit in the German market and

A STATEMENT RELATING TO THE FUTURE OF THE CHRYSLER CORPORATION and DODGE BROTHERS, INC.

The widespread public interest in recent

RUTLAND

One of the season's best baseball games was played in Kelowna on Friday last, when Rutland lost to the Ramblers by the narrow margin of one run, the final score being 6-5 in favour of the home team. It was anybody's game, and was featured by fast fielding on both sides, several double plays being pulled off.

The first three innings were scoreless, Kelowna got one run in the fourth but the fifth frame was when the batters cut loose on both sides, Rutland getting 3 and Ramblers 4 in this inning. In the sixth, each team added another score, Dalton relieving Roth

in the box for the Kelowna boys only just in time, as the Rutland batters were commencing to knock Roth's offerings around in great style.

In the last inning, Karney, up to bat first for Rutland, got a safety, stole second and came home on Graf's two-bagger. The latter then made a foolish attempt to steal third and got caught out. The next two batters struck out and the game was over. Rutland slips back into third place by this defeat, but still has a chance at the second position and is practically certain of being in the play-off. A box score and summary of the game will be found on the Sports page of this issue.

A special meeting of "qualified ratepayers" was held at the School last

Wednesday evening to receive a report from the District Health Officer, Dr. Ootmar, on the present sickness in Rutland, to decide what to do in regard to obtaining a new supply of water and to approve or otherwise either the purchasing or erection of a principal's residence. Some twenty ratepayers were present and Mr. H. LePargneux, one of the three School Trustees, presided.

Dr. Ootmar spoke of the number of cases of diphtheria there were in the district and said there were 51 pupils away from school because of these being carriers in the different families. The children were being subjected to the Schick test to see if they were immune or not from diphtheria and having their throats swabbed for infected throats and he asked the cooperation of the parents.

Mr. W. Price created a mild sensation by asking what were the powers of the doctor and nurse in regard to the swabbing of the children's throats. He understood that Dr. Ootmar was not a licensed medical practitioner in this province. If he had not a license, was it not an anomaly for him to be acting as Health Officer?

Dr. Ootmar said he went there that evening as a Health Officer. He had not taken out a license because he did not intend to do any practicing.

Mr. Price retorted that if it was unnecessary for a Health Officer to be a proper doctor, it was quite possible for an inexperienced person to be sent out at other times to swab their children's throats and make other tests which he objected to. He was not saying anything personal against Dr. Ootmar, but he thought that the parents of the children who went to the school had a few rights and should be considered. He should considerably object to any doctor or nurse monkeying around his children's throats and making tests because they were not qualified to do so. He had found out that some of the children had gone down town to their own doctors and found that they had no infection.

In the discussion that followed this outburst, it was pointed out that Mr.

Price had sent his own child, who was of school age, down town during the past year, and Mr. Price replied that he intended to send her to this school next.

Dr. Ootmar said that, if the government approved of his acting as Health Officer, surely Mr. Price should do so. The children could go to their own doctor and get a certificate of good health if they wanted to.

Mr. Harrison pointed out that the license had nothing to do with the qualifications of a doctor, but was a matter for the Medical Council for the province.

After Mrs. Grindon, the health nurse, had made a spirited defence of her qualifications, which, judging from the subsequent applause, met with the approval of the ratepayers, the matter dropped.

Before leaving the meeting, Mrs. Grindon said that what they wanted more than anything else in the fourteen School Districts she was serving was a Health Committee, consisting of representatives from the different schools, to whom she could go and consult on any problem. It would make it very much easier for her in her work.

Mrs. Wallace explained that Mrs. A. Marchant had been appointed to serve on the committee from Rutland. The question of obtaining another supply of water for the School was next considered. The chairman explained that three or four weeks ago the school water was condemned as unfit to drink and they had had to have the water hauled every day, which was not satisfactory. Being so close to the outhouses, the Health Officer had expressed the opinion that the water from the present well would always be contaminated.

The Trustees were authorized to get a water supply in the best way they thought fit.

The purchasing or erecting of a teacher's residence was then discussed. It was pointed out by the chairman that at the present time they were very fortunate in having excellent teachers; in fact, from the Inspector's report, the School had a very high standing. Mr. Irwin, the principal, was thinking of getting married and had asked if the ratepayers would be willing to supply him with a residence. The Board of Trustees were in favour of acceding to Mr. Irwin's request, and it was up to the ratepayers to decide what to do.

A ding-dong discussion followed, in which Mr. Loosmore supported the Trustees, while Mr. Price and Mr. McMurray were opposed to the scheme. It came out that other school districts around Kelowna provided residences for their teachers and had been able to retain their services as a result. The fact that there would be thirty more pupils next school year, with the possibility of having to find extra accommodation for them was also a factor in the discussion. Mr. Price complained that the taxes were going higher every year, but Mr. LePargneux showed figures that they had been coming down the past three years, this year's rate being nine mills as against twelve mills three years ago.

The discussion was so long drawn out that several left for home, and when, some time after eleven o'clock, it was finally decided to ask the Trustees to obtain all details and cost of building a teacher's residence and discuss with the principal the question of paying rent for it, only 14 voted, 9 being for and 5 against. The matter will be finally decided at the annual school meeting in July.

The meeting then adjourned. Mr. and Mrs. Calbert Montgomery will have the deep sympathy of their many friends in the loss of their little boy, Earl, who died in Kelowna Hospital on Saturday evening. The little fellow was taken ill some time ago with stomach trouble and was getting better when he had a relapse and passed away as stated.

Expecting an easy victory over Glenmore, this season's "cellar champions," Rutland got a surprise on Tuesday night when they just nosed out ahead by one tally, in their home game with the Dry Valley boys. Glenmore presented a stronger team than in the previous encounter and in Joe Gaspardone they have the possibilities of a good pitcher. He also featured at the bat, getting a homer in the third inning, the visitors' first run.

The first half of the game Rutland did some heavy hitting, securing three runs in the first inning and one each in the second and third. In the last half of the game, however, the local batters succeeded in only skying the ball for easy put-outs and went out in short order. In the first of the seventh Glenmore staged a rally that brought them within one run of tying the game before the third man was put out.

The line-up of the teams was as follows: Glenmore—Gaspardone, p.; F. Snowsell, ss.; G. Reed, cf.; Henderson, 3b.; J. Snowsell, rf.; Bebee, 1b.; Ritchie, lf.; Watson, 2b.; Ivons, c. Rutland—Quigley, p.; Doige, 3b.; Karney, ss.; Graf, cf.; F. Kitch, lf.; Irwin, c.; Wanless, 2b.; Monford, 1b.; A. Kitch, rf.

Score by innings: GLENMORE 0 0 1 0 1 0 2 — 4 RUTLAND 3 1 1 0 0 x — 5 Summary: Home run: Gaspardone. Three-base hit: Quigley. Two-base hits: Graf, A. Kitch. Hits off Quigley, 7; off Gaspardone, 9. Struck out: by Quigley, 1; by Gaspardone, 2. Bases on balls: off Quigley, 2; off Gaspardone, 0. Hit by pitcher: F. Snowsell. Left on bases: Glenmore, 11; Rutland, 6. Errors: F. Snowsell, J. Snowsell, Bebee, Ritchie, Doige (2), Karney, Wanless.

Umpires: Reed and Heron.

By Rutland's win and the Ramblers' defeat by Winfield, the locals are back again in second place and are certain of being in the play-off.

The Provincial Government has agreed to grant to the Municipality of Penticton a lease for ninety-nine years of the foreshore along Okanagan Lake from the Okanagan River east to the Incola Hotel frontage and also in front of the Esplanade. The leasehold area will extend about four hundred feet into the lake. It is provided in the lease that the foreshore must be kept for recreation purposes, unless government sanction is obtained for its use for other objects.

TASTY RECIPES

(By Barbara B. Brooks)

Hermites

1/2 cup butter; 2/3 cup sugar; 1 egg; 2 tablespoons milk; 1 1/4 cups flour (or more); 1/2 cup all bran; 1 teaspoon baking powder; 1/2 cup raisins; 1/4 teaspoon cinnamon; 1/4 teaspoon cloves; 1/4 teaspoon mace; 1/4 teaspoon nutmeg; 1/4 teaspoon salt.

Cream the butter, add the sugar and egg, and beat well. Add the milk and the bran, raisins, and flour, which has been sifted with the baking powder and spices. Chill, roll thin, cut with heart-shaped cutter, and bake in a moderate oven (400° F.).

When the cookies are cold, spread thin with an uncooked frosting made by combining confectioner's sugar and hot milk or cream, until the mixture is of the consistency to spread. Add flavouring and a few drops of colouring if desired. Sprinkle the top with chopped nut meats or bran.

Marguerites

Delicious little tea cakes. 2 eggs; 1 cup brown sugar; 1/2 cup flour; 1/2 teaspoon baking powder; 1/2 teaspoon salt; 1/2 cup nut meats, cut in small pieces; 1/2 cup all-bran.

Beat eggs slightly and add remaining ingredients in the order given. Bake in small, well-buttered, heart-shaped tins.

Choc-O-Bran

2 eggs; 1/2 cup sugar; 1/2 cup strained honey; 1 square melted chocolate; 1 cup all-bran; 2 cups flour; 1 teaspoon salt; 2 teaspoons baking powder; 1/2 teaspoon cinnamon; 1/2 cup melted butter.

Beat eggs slightly and add sugar and honey. Beat thoroughly and add melted chocolate and bran. Add dry ingredients which have been sifted and melted butter. Drop from a teaspoon on to a greased pan and bake in a moderately hot oven (400° F.) for 12 minutes. Yield: 2 dozen cookies.

The Summerland Civilian Rifle Association, in bygone days one of the strongest organizations in the Interior connected with the sport of target shooting, but inactive for a number of years, was formally disbanded at a final meeting of its remaining members, held last week, the surplus funds on hand, amounting to the handsome sum of \$175, being handed over to the Summerland Hospital for extension of its X-ray equipment.

THE PRAIRIE FRUIT MARKET BULLETIN

Current Prices And Market Conditions
(From the weekly Bulletin issued by J. A. Grant, Fruit Markets Commissioner, Calgary.)

Calgary, June 9, 1928.
The Week In Calgary

The season of 1928 in so far as the prairie markets are concerned is off to a good start. The held-over winter apples are practically cleaned up and with the exception of potatoes there does not seem to be any surplus left.

In February many cars of broccoli were rolled from Victoria and Vancouver to this market. Keen competition was met from Oregon.

Early forced rhubarb from B.C., mostly arriving L.C.L., supplied the prairies until the field stuff arrived. Up to date over 70 cars of rhubarb have been distributed from B.C. and for the first time no imported rhubarb has been needed. The usual number of rhubarb cars formerly distributed in a season from B.C. has been about 35 cars.

Prairie jobbers inform us that the demand for perishable produce this year is running about 25 per cent heavier than it has been for several years. Strawberries have been imported in double the volume of other years, especially from Missouri. This is serious competition for B.C. growers as their season is just ahead and as Missouri ships its "Aroma" berries by freight, they can be landed in Winnipeg, plus duty, at prices below what they can be profitably landed by express from B.C. Our Winnipeg correspondent shows the enormous volume that has been consumed in that city. Hood River berries are now coming along. Their quotation of \$2.00 per crate F.O.B. shipping point is the lowest that they have ever been offered from there at the start of a season. Their berries this year are clear colored, firm and attractive in appearance.

B.C. Strawberries, 24-pints, \$2.75 to \$3.25
B.C. Gooseberries, 24-pints, 2.50

Alta. Beets, Carrots, Turnips, lb.	.02
Alta. Onions, Green, dozen	.40

REGINA, June 7.—The weather has been cool and showery during the last ten days, ideal weather for the crops, which are away to a good start. Business generally is good. The market has been well supplied with imported strawberries, but the last cars are rolling and the trade are prepared to support the B.C. deal, the first car of which is reported rolling to the prairies. The end of the present week will see the last of imported berries so far as this market is concerned. Most of the imported berries have been used for dessert purposes only and people are waiting for the B.C. berries for preserving. The fact of large quantities of imported berries coming on the market during the last two months may affect the sale of the B.C. fruit when it arrives.

Winnipeg, June 6.—Business on the fruit market in Winnipeg has been fairly steady this spring. Just now the principal thing being marketed is imported strawberries, which have been arriving in volume, twenty cars having come on this market since May 28th, principally in quarts from Missouri, the balance being pints from Oregon. So far the market has absorbed these berries, as they have been coming in in very fair condition and selling at what is probably record for low price. This is purely a local condition owing to competition among the importers here. At the end of the month there were still 10,000 boxes of apples in storage and stock in Winnipeg. This will not take long to clean up. Local rhubarb, also local potatoes with an occasional car from Alberta, are taking care of the requirements. A car of head lettuce arrived from B.C. a few days ago, but, owing to some dispute between the shipper and consignee it is not opened yet.

Wholesale prices:

Potatoes, white, Man, Grade B, cwt., \$1.10 to	\$ 1.20
Potatoes, white, Alberta, Grade B, cwt.	1.35

Manitoba: potatoes, 9. Alberta, potatoes, 4. British Columbia: vegetables, 1. Imported: celery, 4; cabbage, 5; tomatoes, 20; oranges, 15; potatoes, 2; lettuce, 9; bananas, 26; pineapples, 4; onions, 5; grapefruit, 2; strawberries, 26; vegetables, 2; cantaloupes, 2; mixed fruit, 1; cherries, 1; apples, 2; water melons, 2; lemons, 2; cauliflower, 1.

MOOSE JAW, June 7.—Weather conditions could not be better. We had good rains on Monday and Tuesday, and, from reports, covering practically all the territory around Moose Jaw except Hazenmore west on the Weyburn-Lethbridge line. Growing conditions could best be described as being ideal over all our territories except the district mentioned above. The roads were a little sticky yesterday, but the salesmen are still travelling by car and there seems to be no hold-up on this account. There are too many berries here for this week-end. The first car of B.C. fruit will be unloaded tomorrow morning and there are quite a few quarts of Missouri berries and a fair quantity of

Hood Rivers still being offered, but on all lines the market seems to be pretty well maintained. There are lots of old potatoes being offered locally. Looks like a weak market ahead for them.

Next week this market should be ready for a good steady movement of the B.C. berries and other small fruits that are coming on the market. Bananas are being offered at much cheaper prices again, which also reflects the arrival of cantaloupes, etc. There is plenty of local rhubarb at this point, some of which has been shipped by truck to Regina. The mere fact of so much rhubarb being available excludes Washington cars from being rolled in here. The first arrivals of B.C. gooseberries and head lettuce were in this week, but did not find very ready takers. A car of Victoria hothouse tomatoes arrived in excellent condition.

MEDICINE HAT, June 7.—At the commencement of another fruit season here things look very encouraging. For the last month or so the weather was very dry, but within the past week we have had several very nice rains,

and as a result the crops are looking exceptionally well.

We have not had very much B.C. fruit in as yet, outside of rhubarb and gooseberries which arrived this morning, together with head lettuce.

B.C. strawberries which have arrived here so far have just been in fair condition. The first shipment was very badly sanded and we had several complaints regarding this. All these B.C. berries have come from the Mission district.

Saskatoon

SASKATOON, June 7.—Crop conditions here never looked any better than they do just now. There is increased acreage seeded and we have had good rains Monday and Tuesday. We have had several cars of B.C. rhubarb, but this is finished now and small quantities are coming in mixed cars from Walla Walla. Also local barb is now on the market. We are splitting car lots of B.C. hothouse tomatoes with Regina, also have a car of B.C. head lettuce rolling. Strawberries are coming in from Mis-

souri, but next week B.C. will be able to supply this market.

B.C. gooseberries have started to arrive but there is very little call for them.

California is now shipping mixed cars of apricots, plums and peaches.

Edmonton

EDMONTON, June 7.—Business is somewhat quieter than a week ago, but a considerable volume is still moving steadily. Apples have all but lost interest in the market, while strawberries, cherries and cantaloupes are leading. During the week we have had four cars of imported berries and B.C. L.C.L. shipments are increasing daily. Also a shipment of California cherries in half boxes or the 18x9x2 1/2, weighing from 12 to 13 lbs. These are packed and faced, not nearly so large as some received last week. They are being sold in the stores here at 50 to 60 cents per lb. Quite a considerable number of B.C. hothouse tomatoes are coming, both L.C.L. shipments and mixed cars. These are of good quality but not as uniform

in ripeness as could be desired. Field tomatoes are still coming from California.

The total number of straight cars received during the week was 30.

Vancouver

VANCOUVER, June 7.—The weather has been very unsettled during the past week, showers being frequent and hampering the harvesting of the strawberry crop. Today's price on this fruit is around \$2.00, varying both ways from that price according to quality. The cool weather is not conducive to heavy sales and, as a result, the market is on the weak side. A very bad day was experienced yesterday in the handling of strawberries, the price in some instances dropping as low as 75c to the close of the day. Heavy supplies, poor quality and light demand combined to bring about this condition. Bing and Lambert cherries are as yet being supplied from California, but Wenatchee will be in with Bings and Royal Annes on tomorrow's market.

(Continued on Page 8)

THE PRAIRIE FRUIT MARKET BULLETIN

(Continued from Page 7)

Some Black Tartarians will also be in from the latter point.

New potatoes are coming in from Lower Mainland points and should shortly displace the imported tubers. There is a noticeable tendency on the part of Chinese retail dealers to avoid the handling of the local product and give their preference to the imported potatoes. This is said to be due to dissatisfaction on the part of the Chinese with the treatment given them as regards representation on the Committee of Direction. Whatever the cause is,

the Chinamen are stepping on dangerous ground when they presume to place any difficulty in the way of the natural desire of the consumer to buy the home-grown product. It must be remembered in connection with this that at least 90 per cent of local retail distribution is in the hands of the Chinese.

Wholesale produce:

The following fruit and produce has been imported at Vancouver during the period from June 1st, 1928, to date:

Apples, Wash., 55 boxes; peaches, Cal., 15 crates; plums, Cal., 15 crates; lemons, Cal., 240 cases; grapefruit, Fla., 373 cases; bananas, Central America, 1,230 bunches; apricots, Cal., 35 crates; cherries, Cal., 240 lugs; strawberries, Wash., 396 crates; green peas, Wash., 50 crates; carrots, Cal., 367 crates; carrots, Cal., 300 sacks; celery, Cal., 180 crates; new potatoes, Texas, Cal. and Wash., 758 sacks.
--

From January 1st, 1928, to May 31, 1928, the following fruit and produce was imported:

Apples, mostly Winesap and Yellow Newtowns, Wash., 19,059 boxes; less 832 boxes condemned and refused entry; pears, Wash., 40 boxes; strawberries, Wash., Cal. and Louisiana, 5,765 crates; cherries, Cal., 1,003 lugs and boxes; tomatoes, Mexico, 21,691 lugs; new potatoes, Texas and Cal., 472,127 lbs.

N.B.—The new Dominion regulation admitting California potatoes into Canada, subject to each shipment being accompanied by a California Department of Agriculture certificate of fumigation, went into effect on April 12, 1928.

One of the queerest shops in London, and perhaps in the world, is located on the Strand, where an enterprising business man has established a considerable trade in the sale of handcuffs. The proprietor of the store claims to have customers from all over the world. The majority of his orders come from private insane asylums, theatrical companies, and passenger steamship lines.

Pompous physician (to man plastering defective wall): "The trowel covers up a lot of mistakes—what? Workman: 'Yus, gov'nor—and so do the spade!'"—Ex.

TWENTY YEARS AGO

(From the files of "The Kelowna Courier")

Thursday, June 11, 1908

"The creation of Black Mountain as a regular rural School District is advertised in last week's B. C. Gazette."

"Mr. T. J. Clarke has finished the bridge he was building for the South Kelowna Land Co., over the slough which crosses the continuation they have built of Pendozi St. To carry out the work, Mr. Clarke had to build a pile drive which he will now employ in driving piles for the three new city bridges over Mill Creek. The new road will be open by the end of this week and will cut off 1½ miles in the distance between Kelowna and South Okanagan by the present road."

"Glorious summer is now upon us with all the wealth of Okanagan sunshine and warmth. The lake is fast becoming of a comfortable temperature for bathing, and already a number of people are taking their regular morning dip. The thoughts of others turn to the cool shade of trees and the delights of ice-cream, while the hardy navigator trims the sails of his white-winged craft to catch the breezy breeze or delves into the mysteries of spark plugs, coils and compression."

AN OPEN LETTER

Kelowna, B.C., June 7, 1928.
To the Editor,
Kelowna Courier.

Dear Sir,
Please allow me space for the enclosure herewith, being an open letter addressed to the City Council and the Volunteer Fire Brigade.

Yours truly,
B. McDONALD.

Kelowna, B.C., June 7th, 1928.
To the Mayor and Aldermen of the Kelowna Volunteer Fire Brigade,
Kelowna, B.C.

Dear Sirs:—
Following the published report in the "Courier" of May 31st, 1928, regarding the proposed purchase for the City of Kelowna of one LaFrance Fire Engine City Service Ladder Truck equipment and LaFrance Rotary Pump, and your recommendation of a Graham Dodge chassis, it will be noted that a protest was lodged in writing, which was briefly commented on through the columns of the Press, and I understand was not acknowledged otherwise.

As one of the many ratepayers interested in the welfare of City expenditures, I beg to ask the City Council and Secretary of the Kelowna Volunteer Fire Brigade to answer through the medium of this paper the following questions:—
(1). Why the decision to recommend the purchase of a Graham Dodge chassis and LaFrance Fire Engine City Service Ladder equipment and Rotary Pump at \$8,143.00 as against G.M.C. chassis with same equipment at \$8,000.00?
(2). Why the choice of Graham Dodge T.D. chassis, which retails in Vancouver, B.C., with five tires, at \$2,460.00, as against the G.M.C. T-40 T.F. chassis with four tires at \$2,745.00?
(Note: complete G.M.C. tender lower with higher priced chassis.)
(3). Why the choice of Graham Dodge over G.M.C. again, after recommendations of LaFrance Fire Engine Company representative? Especially in face of the fact that General Motors Products build exclusively and especially in Canada the Model T-40 T.F. chassis for Canadian LaFrance Fire Engine City Service Ladder equipment?

(4). Why choose a Graham Dodge Senior Six motor, which has only been on the market for less than one year, as against the Famous Buick Big Six Motor, which has been on the market and a tried-out product for some twenty-seven years?
(5). Why choose a Graham Dodge motor with N.A.C.C. rating 25.35 h.p. as against G.M.C. or Buick Motor N.A.C.C. Rating 29.40 h.p. (when it is admitted that horse power is needed to operate the Rotary Pump)? In conclusion, in view of the increased tax rate this year, I am quite sure the ratepayers generally will watch for your reply with interest.

Yours truly,
B. McDONALD.

FOR RADIO AMATEURS

N.B.C. Programme For The Week Of June 17th to June 23rd

(N.B.—In addition to the programmes of the National Broadcasting Company, a few KGO items are given, which are denoted by the initials of the latter station. The N.B.C. broadcasts through the medium of the Pacific Coast Network are made through six stations, but not all the stations broadcast the same matter simultaneously, as some occasionally substitute a programme of their own. When reception is poor from the first station, tuned in, try the others, but do not be disappointed if you fail to receive the N.B.C. programme from some of them. The six stations are as follows: KOMO, Seattle; KHQ, Spokane; KGW, Portland; KGO, Oakland; KPO, San Francisco; KFI, Los Angeles.)

Sunday, June 17
3 to 4.30 p.m.—Sunday afternoon concert.

Orchestra, Overture (Nicolai), "Grillen" (Schumann); Tenor Solo, "Ves" (Vallejo); Orchestra, Chant du Vagabond (Paderewski); Violin and Orchestra, Concerto (Mendelssohn); Tenor Solo, (a) "Song of the Night" (Waldrop), (b) "Song of Spring" (Waldrop); Orchestra, Prelude, "Tristan and Isolde" (Wagner); "Schoon Rosmarin" (Kreiser); Tenor Solo, "Vidal's Song" (Hart); Orchestra, First Movement from "The New World Symphony" (Dvorak).

6.30 to 7.30 p.m.—Standard Symphony Hour.
Orchestra, Overture, "The Secret of Suzanne" (Wolf-Ferrari); Strings, Waltz and Finale on a Russian Theme (Tschaiowsky); Orchestra, "Habanera" (Chabrier); Violin Solo, to be selected; Orchestra, Baccanale from "Sargon and Delilah" (Saint-Saens); Little Suite (Bizet).
9 to 9.30 p.m.—Atwater Kent programme.
Orchestra, "Japanese Romance" (Clarke), Melodies from "The Merry Widow" (Lehar); Flute and Clarinet Duet, "Dialogue" (Hammer); Orchestra, Reminiscences of "Tannhauser" (Wagner).

Monday, June 18
7 to 8 p.m.—KGO, General Electric programme.
8 to 9 p.m.—Shell Symphony Hour.
Orchestra: Selections, "Erminie" (Jakobowski), Valse, "Destiny" (Baynes), "Chinese Wedding Procession" (Mosner), "A Melody of Old Design" (Crawford), "Nola" (Arndt), "Poungi" (Tschaiowsky), "Piccola Zingari" (Leoncavallo); Violin Solo, "Sole, Smile, Slumber" (Gounod); Orchestra, "Country Gardens" (Grainger), Suite, "L'Oratoire" (Leon).

9 to 9.30 p.m.—Grand Opera Album.
Orchestra, Selection, "Cavalleria Rusticana" (Mascagni); Soprano Solo, Waltz Song, "Romero and Juliet" (Gounod); Baritone Solo, "Eri Tu" from "The Masked Ball" (Verdi); Vocal Trio, Selection, "Source Delicieuse" from "Polyeucte" (Gounod); Contralto Solo, "Ah, Rendimi" from "Mitrane" (Rossi); Ensemble, to be selected.
9.30 to 10 p.m.—Fisk "Time-to-Retire" Boys.
10 to 11 p.m.—"Slumber Hour."
Orchestra programme: "Voice of Spring" (Strauss), Humoresque (Dvorak), "Schoon Rosmarin" (Kreiser), "In a Persian Market" (Ketybey), "Love's Sorrow" (Shelle), "Down South" (Myddleton), Andante, A Minor Concerto (Goltzman), "Serenade Espagnole" (Albeniz), Minuet (Paderewski); "Spanish Gypsy Dance" (Mourcy), Barcarolle (Tschaiowsky) "Cielito Lindo".

Tuesday, June 19

6.30 to 7 p.m.—KGO, Dinner concert.
7 to 8 p.m.—"Memory Lane."
The programme will revive the songs and orchestra music of 1913.
8 to 8.30 p.m.—Eveready programme. Tabloid version of the light opera, "The Grand Duchess" (Offenbach).
8.30 to 9 p.m.—"Don Amazo."
9 to 10 p.m.—KGO, "The Pilgrims."
10 to 11 p.m.—Dance music by The Trocaderoans.

Wednesday, June 20

6.30 to 7 p.m.—KGO, "Parisian Quintette."
7.30 to 8 p.m.—KGO, "Parisian Quintette."
8 to 8.30 p.m.—"Jack and Ethyl, the Motor Mates."
8.30 to 9 p.m.—"National Nite Club."
9 to 10 p.m.—Pacific Goodrich Silvertown Cord Hour, Ensemble, "Merry Widow" Finale (Lehar); Orchestra, "March of the Wooden Soldiers" (Jesell); Cello Solo, to be selected; Quartette, "Southern Skies" (McLeod); Orchestra, "Reamin in the Sunset" (Handerson); Soprano Solo, "Nightingale of June" (Sanderson); Orchestra, dance number, "Fireflies"; Baritone Solo, "When You Come Home" (Squire); Orchestra, "A Lucky Duck" (Whitney); Ensemble, "Tommy Atkins" (Friml); Piano Solo, "Valse Brillante" (Manna Zucca); Orchestra, "The Old Well" (Benoit); Quartette, "A Summer Lullaby" (Gibson); Orchestra, dance number, "The Midnight Waltz" (Donaldson); Soprano Solo, "The Moon Behind the Cottonwood" (Cadman); Orchestra, "Love in Arcady" (Wood); Tenor Solo, "Mavis" (Craxton); Orchestra, "Silver and Gold" (Lehar); Ensemble, "I'm Away from the World" (Pollack).
10 to 11 p.m.—Dance music by The Trocaderoans.

Thursday, June 21

6.30 to 7.30 p.m.—KGO, Dinner concert.
7.30 to 9 p.m.—KGO, Studio concert.
9 to 9.30 p.m.—"Texaco Rounders."
9.30 to 10 p.m.—Philo Camp Fire programme.
10 to 11 p.m.—Dance music by The Trocaderoans.

Friday, June 22

6.40 to 7 p.m.—KGO, Studio concert.
7 to 7.30 p.m.—Retold Tales: "The Ransom of Mack"; by O. Henry.
7.30 to 8 p.m.—White Rock concert.
Saxophone Octette, "Our Director," "Kitten Scamper," "The Gondolier," Vocal Solo, to be selected; Saxophone Octette, "Get the River Ready," "Sax-o-Friends," "Hello, Montreal," Vocal Solo, to be selected; Saxophone Octette, "Mother Goose Parade," "White Rock March."
8 to 9 p.m.—Wrigley Review.
9 to 9.30 p.m.—KGO, "Hawaiian Nights."
9.30 to 10 p.m.—"Moon Magic."
Trio, "Far Off I Hear a Lover's Flute" (Cadman); Maid o' the Moon, "Thou Charming Bird" from "The Pearl of Brazil" (David); Woodwind Ensemble, to be selected; Lad o' the Moon, "Within Her Lowly Dwelling," from "Faust" (Gounod); Flute Solo, to be selected; Vocal Duet, "Greeting" (Mendelssohn); Trio, "The Zephyr" (La Forge).
10 to 11 p.m.—KGO, Western Artist Series concert.

Saturday, June 23

6.30 to 7 p.m.—KGO, "The Home Songsters."
7.30 to 8 p.m.—KGO, "Richard's Hawaiians."
8 to 9 p.m.—KGO, "R.C.A. Hour."
9 to 10 p.m.—"Broadways and Boulevards."
Orchestra, "Sunshine" Tenor Solo, "What Are You Waiting For, Mary?" (Donaldson); Orchestra, "Miss Mexico" (Frantzen); Soprano Solo, "The Desert Song" (Romberg); Orchestra, "Bebe" (Sentis); Tenor Solo, "Waitin' For Katy" (Kahn); Orchestra, "La Golondrina" (Victor Orth); Soprano Solo, "Diane" (Erno Rappe); Orchestra, "Panama" (Tyers); Soprano and Tenor Duet, "There Must be a Silver Lining" (Morse); Soprano Solo, "Dolores" (Kahn); Orchestra, "Cairo" (Pollack), "Dream Tango" (Davis); Tenor

Solo, "That's My Mammy" (Pease); Orchestra, "Yale Blues" (English); Orchestra and Voices, "Countess Maritza."
10 to 12 p.m.—Dance music by The Trocaderoans, with vocal and instrumental numbers.

Whole forests may spring up if the plans of a large pulp company to plant trees from aeroplanes are carried out

this summer, as was forecast at a recent meeting of the Royal Canadian Institute. Grass seed was successfully sown from aeroplanes in the United States last summer, with the result that efforts will be made to sprinkle tree seeds from the air as part of a reforestation scheme in Northern Quebec. More than 250 square miles of forest a day could be planted if the project were feasible.

LETTERS TO THE EDITOR

MARKETING CONTROL LEGISLATION ASSAILED

Peachland, B. C., June 11, 1928.

The Editor,
Kelowna Courier.

Dear Sir,

In the matter of the Fruit Control Board, or Marketing Committee, and their ability to function this season with protection practically removed, I think, if you will consider the enclosed clipping taken from the Daily Province of Dec. 10th, 1927, you will see that the said board was the direct cause of investigation by the Tariff Board before they would give consent to advocate a seasonal tariff.

On investigation, the stand taken by the chairman of the Board, to my mind, not only ended the seasonal tariff but presaged a move on their part for further protection for the consumer on the prairies. As the matter was closely followed by prairie consumers, what more natural than that, if they considered (rightly or otherwise) they were being held up by a board controlling prices to them, they would protest against such control through their representatives at Ottawa—hence the action of the Tariff Board and the Government at Ottawa.

I think we are safe in saying, had there been no Marketing Board, we were in a fair way to obtain a seasonal tariff, or at least that the anti-dumping clause would have been left as it was for the past two years.

Now, Sir, under present conditions, of what avail is the Control Board going to be to the shipper, as prices, to

all intents and purposes, will be set by the surplus from U.S.A., as notice effect already on the strawberry market, but when the apple and pear crop matures—what then? I suppose they can order a good part of the crop exported to prevent a glut on the prairie markets and make more room for U.S.A. imports, and leave our exports to meet world competition in the United Kingdom market, which has often and is likely, on account of good crops all over the world, to return "red ink."

I am enclosing a few clippings, which I would ask you to reprint, including my prediction of trouble in an interview given to the Daily Sun and Province on December 21st last.

The connection between the first investigation by the Tariff Board of the Control Act and what has occurred since is quite plain and should not be any surprise to any one who has closely and impartially followed the matter. I think that so long as a Marketing Board exists our chance for a protective tariff is nil.

Yours truly,
I. COUSINS.

(1.) Clipping from Vancouver Daily Province, Dec. 10, 1927.
(By Charles Bishop)

OTTAWA, Dec. 10.—Is an organization set up by a provincial government for the benefit of a common industry of the province, the result of being placed in the category of illegal enterprises and liable to prosecution? This unique question seems at least remotely suggested by developments before the Tariff Board yesterday in the further hearing of the applications for a seasonal tariff on fruits and vegetables.

New Angle Introduced

It is the British Columbia Produce Marketing Act which brought several strictures from Chairman Moore of the Board and seems to introduce an entirely new angle into the discussion. Even though the B. C. organization is fostered by the provincial government, the plain fact is that, at least in Mr. Moore's opinion, it is in restraint of trade and he is going to report it to the government and perhaps to the government of local producers, operates also to the injury of fruit consumers, especially in the prairie provinces. The development caused quite a stir in public places here. The demand for a seasonal tariff on fruit and vegetables is an old one, but it has been emphasized anew since the Tariff Board started to function. Several hearings have been devoted to it. The argument is that, because of the United States season being more advanced, fruit and vegetables from there come in early and saturate the public appetite so that, when the domestic product comes along, the price does not hold up. The idea appeared to be taking some root and may still prevail, but, from opinions expressed, the situation, as disclosed in British Columbia, is not very helpful and possibly prejudicial. One basic argument of the cultural Association for a seasonal high tariff was that domestic competition would fully regulate the price at home and prevent any abuse.

Regarded As Pretty Sweeping

The British Columbia Produce Act, administered by a Committee of Direction, is considered here to be pretty sweeping and, as Chairman Moore stated, it has "teeth in it." The board has power to fix minimum and maximum prices at which fruit can be sold, fix the time and places of delivery, fix the quantity to be marketed and cancel or suspend the licences of growers operating under the act. Other regulatory powers are possessed.

Mr. F. M. Black, who heads the Committee of Direction, points to the unsatisfactory condition of the Okanagan fruit industry before the Control Act became effective and to the stabilization that has since occurred and, moreover, claims that, as the heavy consumption indicates, prices are fair and reasonable. He is not at all pleased with Mr. Moore's strictures.

It is admitted, however, that the organization created by the act has prejudicial and other extensive powers against which the head of the Tariff Board claims, prairie consumers are unable to defend themselves, "competition being annihilated."

While it seems questionable if any action would be taken against this organization, the demand for a seasonal tariff on fruit in the West and the East may very possibly be prejudiced from an explanation of the powers exercised by the British Columbia body in fixing prices and generally regulating the production and distribution of a commodity of common consumption.

(2.) Clipping from Vancouver Sun, December 21, 1927.

Fear that the British Columbia produce marketing control policy will result in a boycott of British Columbia fruit by the three prairie provinces in action by the Tariff Board cutting the protective duty on imported fruit expressed by Isaac Cousins, of Peachland, who is in Vancouver supporting W. H. Hammond, of Ashcroft, in his fight against the Committee of Direction.

In difficult feeding cases

—when no food seems to agree with Baby—use Eagle Brand. It nearly always solves the problem.

Free Baby Welfare Books
on the care and feeding of infants. Write The Borden Co., Limited, Vancouver.

tion. "If we lose the prairie market, we might as well dig up our fruit trees and quit the business of fruit growing," said Mr. Cousins.

"I have lived on the prairies and I know the temper of the people down there. Even now Ontario onions are going to Regina for sale, formerly our market, while growers in the Okanagan have 2,500 tons of onions that the Committee of Direction have made it impossible to sell."

(3.) Clipping from Vancouver Daily Province, December 21, 1927.

The British Columbia Marketing Act has failed to obtain higher prices for apple and vegetable growers in the province, according to Isaac Cousins, a grower at Peachland.

Mr. Cousins has arrived in Vancouver to co-operate with W. H. Hammond, of Ashcroft, in combating the authority of the Committee of Direction, generally known as the Control Board.

Formerly a resident of the prairie provinces, and now a cultivator of ten acres of orchard at Peachland, Mr. Cousins is emphatic in condemnation of the act.

Asked if the authority of the Control Board had materially affected the returns he obtained for his produce this year, he said that it had neither benefited nor hindered him to any extent.

"No Useful Purpose"

"I obtained just as good prices last year by shipping to one of the much-abused commission houses in Calgary as I did this year as a licensed independent grower-shipper," he said. "It certainly has not increased my income, and in my opinion it serves no useful purpose. It is an unnecessary piece of legislation, is non-productive of results, and is an additional burden on the growers."

"I cannot say that I have lost money through the act, but it certainly has failed to get the prices for us that might have been expected. There was a short crop of apples throughout the world this season, and prices might have gone much higher than those set by the board."

"In the United States, where there is no market control, apples have been quoted from 25 to 50 cents higher per box than on this side of the line."

While I cannot say that the act has cost me money, I am opposed to it in principle. I claim that the growers could solve their own problems if left alone. The co-operators are paying too many big salaries to their officials," said Mr. Cousins.

Asked if all independent shippers in the Interior were opposed to the act, Mr. Cousins stated that he could not say all of them were, but many have so expressed themselves.

He expressed fear that the prairie provinces would ultimately take offence at the act and boycott British Columbia apples.

"Already we have lost the onion trade of Regina. The onion price was so high that we have been crowded out of that city by Ontario onions. Our growers have 2,500 tons on hand which they are unable to market," he said.

In conclusion, Mr. Cousins stated that mass meetings held in the Okanagan a year ago to demand a market control act had not been fully representative, and that the act, when written and passed by the Legislature, had not been in the form desired by the growers.

(4.) The prairie point of view, as shown in the following extract from the Free Press Prairie Farmer, Winnipeg, June 6.

It is a matter of grave concern to note the growing tendency of western agriculturists to seek the protection of tariffs for their natural products. This attitude is particularly noticeable among agricultural industries of the more limited nature such as poultry raising, dairying, fruit growing and market gardening. The apprehension that feels over this situation is not appreciably lessened by the fact that these new devotees of protection seek to explain their change of heart by loudly acclaiming that they ask only the measure of protection afforded by the dumping duty.

There is so much misuse and misunderstanding of the word "dumping" as applied to "duties" that it would perhaps be well to define just what a "dumping duty" is. Goods may be imported and sold at a very low price but unless they are sold below their market value in the country of origin they are not "dumped" as understood by the Customs Department. The foreign sale of an exportable surplus does not necessarily involve dumping. Indeed, it is questionable if dumping of natural products in Canada has ever been proven. The problems of American eggs, fruit and vegetables flooding the Canadian market seems rather to be a seasonal one. A cutting of price, by the American producer, at the point of dumping is unnecessary and consequently unlikely.

Any other interpretation of dumping, than the above, makes this duty an ordinary protective tariff. The arbitrary fixing of value for duty purposes, either by the Minister of Customs or the Governor-in-Council, does not bear any relation to the market value of the goods in the country of origin. This system does not lend itself to fair competition between American and Canadian producers but rather to the fixing of unfair price levels against which the Canadian consumer has no redress.

The inconsistency of the position taken by the poultry raisers and fruit and vegetable growers is perfectly apparent. Although they have denied the right of the manufacturer to protection, yet in the next breath they are demanding it for their own products. A continuation of this practice cannot be otherwise than disastrous to the free trade interests of the West. This may well be illustrated by citing the poultry industry.

For purposes of argument, let us suppose that an individual grower makes ten per cent of his income from the sale of eggs, the balance being derived from grain growing and hog raising. The slight benefit derived from protection on ten per cent of his income will be offset many times by the loss on one hundred per cent of the goods he consumes, due to the protection which he must, in all fairness, allow the man who produces them.

As has already been pointed out, it is the minor agricultural industries which seek this protection and in many cases it would be effective on only a

small part of the income. Surely this is a selfish attitude to adopt, as by far the greater part of the agricultural wealth of Western Canada is, and will for many years continue to be, derived from growing of grain and livestock, particularly beef cattle, sheep and swine. Why should a comparatively limited number of persons thus jeopardize the rights of the vast consuming public of Western Canada who claim the privilege of purchasing the best goods at the most favourable prices the market can afford, regardless of the country of origin?

It is entirely possible, indeed probable, that the application of the dumping duty reacts to the detriment of the Canadian producer. If, as it is argued, such a practice increased the price of Canadian eggs, it would at the same time curtail consumption. This process might well reach the point of limiting the market and causing large stocks to go into storage. The American market would be similarly affected, resulting in lower prices the following year. If the Canadian distributor endeavored, in the face of this condition, to maintain the price level, American eggs would flow in regardless of the duty. The "Law of Diminishing Returns" is still operative.

Unfortunately too many persons today consider the question of tariff from a producer's point of view. Only a comparatively small number of individuals are producers of eggs, milk, fruit, or vegetables for sale. The number engaged in manufacturing boots, shoes, clothing and other individual lines of goods is likewise limited. One hundred per cent of our people are, or should be, consumers of eggs, milk, fruit, vegetables, boots, shoes, clothing, etc. As producers our interests are specific, but

as consumers they are general. In determining our views on the tariff both these factors should receive consideration.

As the result of a public meeting called at the instance of the Mayor to discuss the subject, it is likely that Armstrong will abandon its traditional celebration of Dominion Day—a custom of many years standing—and in lieu will concentrate all efforts upon the Fall Fair and a concomitant sports programme. A committee was appointed to negotiate with Vernon in regard to transfer to that city of Armstrong's claim to Dominion Day as a celebration date, as Vernon heretofore has had no fixed day for a programme of sports.

ACKNOWLEDGED Everywhere
THE FINE CAR OF LOW PRICE

ALL over the continent it is becoming clear that Oldsmobile has done a very important thing.

It has opened the fine car field to thousands once barred by price!

This new car provides quiet, smooth performance, and the flowing power of a high compression engine.

It embodies the restful comfort of silenced interiors and Lovejoy hydraulic shock absorbers.

The striking new bodies by Fisher excel in smartness of appearance and handsome appointments.

All these elements are offered in that perfect balance which has identified high-priced cars.

And no one need pay a premium to enjoy these qualities.

Public acceptance proclaims this product of General Motors as more than just a new car.

It stamps it as the creation of an entirely new class of motor cars.

And in this class of cars Oldsmobile stands alone—The Fine Car of Low Price!

Only by driving the new Oldsmobile can you understand how completely it merits the enthusiastic admiration it is exciting!—why thousands are buying Oldsmobile. Come, take that drive today!

General Motors' own deferred payment plan . . . GMAC . . . affords you the simplest and most economical way of buying your Oldsmobile on time.

IMPORTANCE OF GOOD STAND OF TOBACCO

(Experimental Farms Note)

The chief aim of the tobacco grower is the production of a good crop of high quality tobacco. In order to obtain this, close attention must be paid to every phase of the year's operations from the seed-bed to the curing barn. Not the least among these operations is the securing of a uniform stand of plants in the field. Lack of uniformity in a field affects the crop in several ways. In the first place, it lowers the yield. Furthermore, plants surrounding yield gaps, having more available plant food, tend to a rank growth, thereby defolting the plants and maturity. This results in a lack of uniformity in the cure and a higher percentage of lower quality leaf. Yield and quality are further affected by the great wind injury resulting from gaps in the rows. Undoubtedly it pays to have a uniform stand of tobacco in the field.

Other factors there is a better conservation of moisture in soil which is completely covered by a crop. The soil moisture tends to evaporate more rapidly from the bare patches in a field. This is of considerable importance in dry seasons in Ontario and Quebec, and is of paramount importance in the Dry Belt of British Columbia. In regard to fertilizer, an even stand results in a better utilization of any commercial fertilizer which has been applied to the land. This means that the grower with a uniform stand obtains a greater return for the money invested in fertilizer than if there are many gaps in the

rows where the fertilizer is not being utilized. The same argument applies in a lesser degree to insecticide used as a spray or dust. There is less waste. Finally, the occurrence of many gaps in a field detracts greatly from its general appearance. As a result of this the prospective buyer quite probably will not be prepared to offer as high a price as he would for a crop having a uniform stand.

From this it will be seen that a good stand of tobacco is of great importance in securing a high yield of good quality tobacco by utilizing the land to the fullest extent, by ensuring a uniform maturity and cure and by lessening mechanical injury. Furthermore, there is a better conservation of moisture, a larger return from the money spent on fertilizers, and less waste of insecticide. Finally, the general appearance of the crop is improved with a consequent higher price to the grower. Undoubtedly it pays to have a uniform stand of tobacco in the field.

T. G. MAJOR, Tobacco Specialist, Central Experimental Farm, Ottawa.

TOWN AND DISTRICT SPORT ITEMS

BASEBALL

Ramblers Win Tight Game With Rutland

Good fielding, plenty of hitting, and as close a contest as could be wished for featured Friday's game in the Central Okanagan League, when the Ramblers just nipped Rutland 6-5, to regain second place in the league standing and make a place in the playoffs secure.

The losers outthrew the Ramblers, but were unable to do much when there were men on bases owing to the excellent fielding of the Ramblers. In this respect Rutland were not far behind, but one of their few errors at a critical time, followed by Stephenson's long hit to centre field which Graf got his hands on but could not hold, spelled disaster. The game was also featured by no less than four double plays, two by each team, and the spectators were treated to a fast, close game, which was made a great deal more attractive to witness and to take part in by the work of base umpire Clay, whose methods were a treat. Johnston, behind the plate, also had a good night, and the umpiring was perhaps responsible to some extent for the class of ball produced.

For three innings airtight fielding kept both teams without a score but the Ramblers took a lead with a run in the fourth on Roth's hit after Patterson walked and stole second. Rutland came back with three in the fifth on four hits and an error, but the Ramblers forced Quigley's curves and saw ball for four runs when they came to bat. Rutland had been finding Roth fairly easy to hit, and after the first three batters in the sixth had connected for hits, he was replaced by Dalton, who promptly fanned Quigley and Doige. Rutland added another in the seventh, but Dalton tightened up and struck out the last two batters to leave the Ramblers 1 run to the good. Karney, with three hits in as many times to bat, was the heavy hitter of the evening.

Summary: Two base hits: Graf, Wanless, A. Kitten, (2). Stolen bases: Patterson, Irwin. Bases on balls: Quigley, 3. Struck out: Roth, 3; Quigley, 4; Dalton, 4. Hit by pitcher: Roth, Karney; Stephenson to Dalton; Bourke to Patterson; Irwin to Wanless. 13 hits, 4 runs off Roth in 5-1/3 innings; 2 hits 1 run off Dalton in 1-2-3 innings. Winning Pitcher: Roth; Umpires: Clay and Johnston.

Last Inning Gives Kelowna Victory Over Summerland

For five innings Kelowna and Summerland battled through as close and interesting a game of baseball as has been witnessed on a local field for many years, despite the drizzling rain which prevailed almost continuously. Scoring four runs in the sixth, the visitors held the lead until a rally in the eighth and ninth brought in four more runs for the locals, which, with one in the sixth, gave them a 6-5 lead.

Unfortunately, the game was marred by disputes, especially in the eighth inning, when Kelowna scored two runs, and the spectators took a large part in the argument, which should have been left to the umpires and the respective managers. The dispute will be aired at a meeting of the Valley League today, and further comment would be obvious, if out of place at the present time. Sufficient to say that these conflicts are unnecessary if officials, players and spectators carry out their duties and privileges to the fullest extent, and they are harmful to the spirit in which baseball has been played in Kelowna this year.

Summary: Three-base hits: Dalton. Two-base hits: Dalton, Patterson. Stolen bases: McLeod, 2; Patterson, Dalton, Parkinson, Daniels. Struck out: Henderson, 10; Gould, 12. Bases on balls: Gould, 2; Henderson, 2. Hit by pitcher: Parkinson, 2; Patterson, Henderson. Sacrifice hit: Bourke. Umpires: Johnston and Johnson.

New Diamond Made Ready For Use

With the rising of the lake level last week the baseball grounds in Athletic Park became unfit for use, and arrangements were hurriedly made for the use of a field on Harvey Avenue, owned by Mr. G. C. Rose. Through the courtesy of Mr. Rose, permission was obtained to use the ground, and on the Wednesday night prior to the Summerland game a diamond was laid out. On Thursday several members of the Kelowna team and officials, by the use of hand rakes and a lawn mower, transformed the field into an excellent diamond. Apart from roughness in left field, the new ball grounds are as good as any in the valley and the kindness of the owner of the property in providing accommodation when urgently needed is appreciated by players and supporters alike. All ball games will be played on these grounds for the remaining two weeks of the season.

Central Okanagan League

P. W. L. P.C. Hornets 9 8 1 .888 Rutland 9 6 3 .666 Ramblers 8 5 3 .625 Winfield 10 5 5 .500 Oyama 9 3 6 .333 Glenmore 9 0 0 .000

Friday night results: Ramblers, 6; Rutland, 5; Hornets, 18; Glenmore, 1. Saturday, 3; Winfield, 2.

Tuesday night results: Winfield, 5; Ramblers, 3; Hornets, 8; Oyama, 1. Rutland, 5; Glenmore, 4.

Oyama Noses Out Winfield Oyama supplied another surprise on Friday by nosing out Winfield in the seventh inning, after Winfield had led 2-0 until Oyama's last turn at bat. This was a serious blow to Winfield's chances in the playoffs, which would have been good had they won, and, although they are not out of the running, the Ramblers must lose to Oyama and Glenmore to place Winfield in a tie for third place.

Glenmore Shows Good Form Glenmore supplied a further surprise by holding Rutland to a 5-4 score on Tuesday, and came within a narrow margin of winning their first game.

Ramblers Lose At Winfield The Ramblers also came a cropper at Winfield, six runs in the first inning, inability to hit Duggan, and some smart fielding by Winfield being responsible for the Ramblers losing 8-3.

Box score: RAMBLERS

AB. R. H. PO. A. E. Ryan, 2b 2 1 1 0 0 0 Bourke, cf 2 1 2 0 2 1 Dalton, 3b-p 2 1 2 0 2 1 Patterson, ss 3 0 0 2 3 1 Roth, p-3b 3 0 0 0 1 0 McKay, 1b 3 0 1 10 0 0 Bradshaw, rf 3 0 0 1 0 0 Keep, lf 2 0 0 1 0 0 Staples 0 0 0 0 0 0 Rainbow, c 3 0 0 4 1 0

Kelowna League Standing P. W. L. D. Pts. City 2 2 0 0 4 Occidentals 3 1 1 1 3 Can. Legion 3 0 2 1 1

Splendid Batting Rally Wins Match For City

One of the most interesting matches in the history of the Kelowna and District League resulted last week-end, when City and Occidentals, 1927 champions, met at the Agricultural grounds. With a total of 161 for 9 wickets the Occidentals declared, leaving their opponents an hour and a half to make a total which has seldom been accomplished in a single innings during a District League fixture. With the last ball in the final over, the City compiled sufficient runs to make their total 167 for the loss of 6 wickets.

The match was also featured by the unusually large scores attained by both teams, but the pitch was to the liking of the batsmen and runs came freely.

Batting first, Occidentals ran up 43 before the first wicket fell, A. P. Hayes obtaining 45 before falling victim to a catch by Keevil. Oliver was also conspicuous with a 42 before also being caught, his innings including seven fours. With the scoreboard showing 161 for 9, the Occidental captain decided to declare, giving the City 90 minutes to make a total which had not been reached during the season.

The City batsmen, however, also found the pitch to their liking, and apart from Potts, none of the bowlers was successful in taking wickets, Potts making a catch off Coe's bowling for the seventh wicket secured, and Coe reciprocating by making a catch of Crichton off Potts. Crichton and Hayman opened a partnership which resulted in Hayman making 31 before falling a victim to Potts. After Mangin had

been dismissed for 10, Bredin and Crichton commenced a partnership which had a great deal to do with the final score. Crichton's careful batting and Bredin's hard hitting ran the score from 50 to 131 before Crichton was caught by Coe. The City batsmen, taking chances in the hopes of pulling out a victory, brought the total to 157 with but a few minutes of time left during which the necessary runs were secured in the final over.

Bredin, 3 for 19, Blakeborough, 2 for 24, and Potts, 5 for 37, were the most successful bowlers, Bredin's 44, A. P. Hayes, 45, and Oliver, 42, being the highest batsmen.

OCCIDENTALS—

Okanagan Eleven To Play In B.C. Championship Series

An announcement of special interest to cricketers of the district and the Okanagan has been made by Secretary Keevil of the Kelowna Association to the effect that an Okanagan eleven will take part in the British Columbia championships at Victoria during the week of July 31 to August 7. Players to be selected from Vernon and Kelowna, and the party, which will probably number in the neighbourhood of fifteen, will travel to the Coast by cars. While it is probable that some of those who would be selected will be unable to make the trip at that time of the year, it is felt that a fairly strong eleven can be chosen from Kelowna and Vernon players who will be able to go.

This will be the first time for many years that Kelowna has been represented at the Coast by a cricket eleven, and the entry in the B.C. championships will do much towards increasing the commendable feeling which already exists between other branches of sport in Kelowna and similar clubs at the Coast.

City To Meet Canadian Legion This week's District League fixture brings the league leading City eleven against the Canadian Legion at the exhibition grounds, the team to represent the City being as follows: Crichton, Mangin, Bredin, Matthews, Keevil, Hayman, Ashbury, Blakeborough, Fleck, Tye, Campbell, G. Wilson.

ERGOT, ITS CAUSE AND CONTROL

(Experimental Farms Note.) Ergot is an important disease of rye, wheat, barley and many kinds of wild and cultivated grasses. Besides reducing the yield and quantity of the grain, the ergot bodies cause sickness or death when eaten by animals or the domestic fowl.

The disease is caused by a fungous parasite, the spores of which enter the floral parts of the plant when these are open at blossom time, and the result is the development of the ergot bodies instead of the kernels of grain. These blackish bodies mature as the plants mature on which they grow. Some of these fall to the ground, while others find their way into the threshed grain, and in this way the fungus is returned to the soil. In the spring, each of the ergot bodies on, or near, the surface of the soil, sends out several stalks which, in turn, bear many tiny, light spores. These are shot out of the spore-bearing cavity and are carried upwards by

air currents and insects to the floral parts of susceptible plants. Under moist conditions, these spores send out tiny threads which grow into and fill the place where the new grain would have developed. At this stage, the fungus exudes a large amount of sweet, sticky spores, which spread the fungus. Insects, attracted by this honey-dew, carry the spores on their body to the floral parts of other plants. Rain and wind also help to spread these spores. Warm showers followed by sunny periods produce favourable conditions for the spread of the disease. After some days the honey-dew stage comes to an end, and the familiar hard, black ergot bodies form.

Controlling the disease becomes a matter of eliminating the ergot from the seed and from the soil. Complete separation from the seed is possible by immersing the grain in a solution of common salt, made up by dissolving forty pounds of salt in twenty-five gallons of water. On stirring the grain, the ergot bodies come to the surface, where they are skimmed off and then destroyed. The grain is then washed at once, and dried quickly, to prevent injury to germination. A combined salt-formaldehyde treatment must not be attempted.

A succession of crops susceptible to ergot should be avoided as far as possible. It is very important to avoid sowing either rye or durum wheat after ergot infested crops of these grains, since these two crops suffer most severely from the ergot disease.

No suitable variety of rye, or of wheat, has yet been found to be resistant to the ergot disease.

G. B. SANFORD, Dominion Plant Pathological Laboratory, Edmonton, Alta.
